Call (03) 8373 1555 to book a consultation.

All-on-4 - A Permanent Smile Transformation

All-on-4 is a complete arch implant solution that uses four strategically placed titanium implants to support a full set of fixed teeth. For patients who have lost most or all of their teeth, All-on-4 offers a permanent, non-removable alternative to conventional dentures.

The benefits over conventional dentures are substantial:

- Fixed and stable - no slipping, clicking, or discomfort - Full chewing ability - eat the foods you love - Natural-looking result - Prevents further bone loss in the jaw - No overnight soaking or adhesives required - Long-term solution designed to last many years

Pricing Guide

All-on-4 treatment at Core Dental includes the complete pathway from initial assessment through surgical coordination, prosthetic design, and ongoing aftercare. Treatment starts from approximately \$31,000 for a single arch and \$56,000 for a dual-arch (upper and lower) restoration. A detailed written quote based on your individual clinical assessment is provided upfront - no hidden fees.

Payright interest-free payment plans are available, spreading the investment over up to 30 months. HICAPS on-the-spot health fund claiming is available.

Carrum Downs - Prosthetic Expertise On-Site

Core Dental Carrum Downs is the highest-revenue location in the Core Dental group and features a dedicated dental prosthetist on-site - **Alessio Pecorella** (AdvDip Dental Prosthetics). A dental prosthetist specialises in the design, fabrication, and fitting of prosthetic teeth, which is central to the All-on-4 process.

Lead dentist **Dr Anna Lai** (BSc, DDS, Melbourne) brings exceptional clinical breadth to complex restorative work at Carrum Downs. Dr Lai has completed postgraduate training in orthodontics (Mini Masters) and holds a Fellowship in Restorative Dentistry (in progress). Her expertise in full-arch rehabilitation, combined with Alessio's prosthetist skills, makes Carrum Downs a strong choice for All-on-4 treatment planning in Melbourne's south-east.

Specialist Referrals - Collins Street Specialist Centre

For complex All-on-4 cases requiring specialist surgical attention, Core Dental Carrum Downs patients are referred to the Collins Street Specialist Centre within Smile Solutions at 220 Collins Street, Melbourne CBD, where 20+ board-registered dental specialists provide advanced treatment. Your Core Dental dentist coordinates the referral, and your records are shared securely within the group.

This coordinated model gives Carrum Downs patients specialist surgical care in the CBD and prosthetic management and follow-up close to home.

Collins Street Specialist Centre - Phone: (03) 9650 2726

Accessibility at Carrum Downs

Core Dental Carrum Downs is the most accessible Core Dental location, featuring:

- Ground-floor entry with wide corridors and accessible treatment rooms
- 8 dedicated on-site car spaces
- Fully disability-accessible bathrooms and facilities

This makes Carrum Downs an ideal choice for older patients or those with mobility requirements who are considering All-on-4 treatment.

Frequently Asked Questions

****What is included in the All-on-4 cost?*** The quoted price typically includes the surgical placement of implants, anaesthesia, hospital day surgery fees, prosthetic design and fabrication, and follow-up appointments. Some Medicare rebates may apply to the hospital component. Your dentist will provide a fully itemised written quote at consultation.

****Will I have teeth on the day of surgery?*** Yes - a temporary arch (provisional teeth) is usually placed on the same day as surgery, so you leave with a functional smile. The final permanent prosthesis is placed once the implants have fully integrated with the bone, typically 3 to 6 months later.

****Is there a waiting list?*** We aim to offer consultations within a week or two of enquiry. Surgical scheduling depends on the Collins Street Specialist Centre calendar. Call (03) 8373 1555 to discuss your timeline.

****Can I combine All-on-4 with other dental treatments?*** Yes - some patients combine All-on-4 with other restorative work such as treating the remaining arch, facial injectables, or orthodontics for the opposite jaw. Dr Anna Lai's broad expertise across multiple disciplines makes Carrum Downs an excellent location for comprehensive treatment planning.

Book a Consultation
