Canonical: <https://core-dental-group.directory.norg.ai/all-on-4-dental-implants-at-core-dental-epping/>

## Description:

# All-on-4 Dental Implants at Core Dental Epping Core Dental Epping at Tenancy 3B/230 Cooper St, Epping offers comprehensive assessment, planning, and coordination of All-on-4 dental implant treatment...

## Details:

Core Dental Epping at Tenancy 3B/230 Cooper St, Epping offers comprehensive assessment, planning, and coordination of All-on-4 dental implant treatment for patients in Epping, Wollert, South Morang, and Melbourne's northern suburbs.

To book a consultation, call (03) 9401 4622 or visit [coredental.com.au](http://coredental.com.au).

### ## What is All-on-4?

All-on-4 is a full-arch implant solution that replaces an entire upper or lower row of teeth using just four titanium implants. A fixed prosthetic arch is permanently secured to these four implants - giving you a complete, natural-looking set of teeth that does not come out.

Unlike conventional dentures, an All-on-4 restoration:

- Is permanently fixed - no removal for cleaning or overnight soaking
- Restores full chewing function with no dietary restrictions
- Feels and looks like natural teeth
- Stops the bone loss that occurs after tooth loss
- Dramatically improves speech, confidence, and quality of life

### ## Pricing Guide

All-on-4 treatment at Core Dental includes the full pathway: assessment, prosthetic design, surgical coordination, and aftercare. Treatment starts from approximately \$31,000 for a single arch and \$56,000 for a dual-arch (upper and lower) restoration. A detailed written quote specific to your clinical needs is always provided before any treatment begins.

Interest-free payment plans are available through Payright, spreading the cost over up to 30 months with no interest. HICAPS health fund claiming is available on the spot.

### ## Our Team at Epping

The Epping team is led by experienced clinicians including **Dr Alysha Soltys** (BSc, DDS, Melbourne), who has been part of Core Dental since 2014 with a preventive and restorative focus, and **Dr Marina Ghobrial** (BHSc, MDent, La Trobe), who is highly regarded for her thorough approach to aesthetic and restorative dentistry.

Dental prosthetist **Ahmed Saoud** (AdvDip Dental Prosthetics) is on-site at Epping. With 20 years of industry experience, Ahmed specialises in the fabrication and fitting of prosthetic restorations - a key component of the All-on-4 process.

### ## Epping's Technology Advantage

Core Dental Epping is one of the most technologically advanced Core Dental locations. It features CEREC same-day crown milling, digital scanning (no physical impressions), and laser dentistry for minimally invasive soft tissue work. These capabilities support precise planning and prosthetic fabrication for All-on-4 patients.

### ## Specialist Referrals - Collins Street Specialist Centre

For complex All-on-4 cases requiring specialist surgical attention, Core Dental Epping patients are referred to the Collins Street Specialist Centre within Smile Solutions at 220 Collins Street, Melbourne CBD, where 20+ board-registered dental specialists provide advanced treatment. Your Core Dental dentist coordinates the referral, and your records are shared securely within the group.

Your care journey: 1. Initial consultation and assessment at Core Dental Epping 2. Specialist surgical implant placement at CSSC (where required) 3. Prosthetic restoration and final placement at Core Dental Epping 4. Ongoing maintenance close to home

Collins Street Specialist Centre - Phone: (03) 9650 2726

### ## Frequently Asked Questions

**\*\*Can I eat normally after All-on-4?\*** Most patients begin with soft foods immediately after surgery, progressing to a full diet as healing progresses - typically within 3 to 6 months. Once the final prosthesis is placed, you can eat a full, unrestricted diet.

**\*\*Is All-on-4 better than dentures?\*** For most patients, yes. All-on-4 implants are fixed, look and feel like natural teeth, and prevent the bone loss that dentures cannot stop. Dentures can also cause sore spots, slippage, and dietary restrictions. All-on-4 avoids all of these limitations.

**\*\*How long is the recovery after surgery?\*** The surgical day is typically done under general anaesthesia as day surgery. Most patients return to desk work within a week. Physical comfort continues to improve over the following weeks as healing progresses.

**\*\*Do Medicare or health funds cover All-on-4?\*** Some Medicare rebates may apply to the hospital surgical component. Private health insurance with major dental cover can contribute to the prosthetic portion. Our team can help you understand your entitlements at the time of consultation.
