Details:

Core Dental Group offers All-on-4 dental implants across select Melbourne locations, providing patients who have lost most or all of their teeth with a permanent, full-arch smile restoration - often completed in a single day.

As part of the Smile Solutions Group - Australia's most established dental network - Core Dental patients also have access to the specialist referral pathway through Collins Street Specialist Centre (CSSC) for complex cases requiring surgical expertise.

Call 13 13 16 or visit coredental.com.au to learn more.

What Are All-on-4 Dental Implants?

All-on-4 is a full-arch implant solution that replaces an entire upper or lower row of teeth using just four strategically placed titanium implants. A fixed prosthetic arch - which looks, feels, and functions like natural teeth - is attached to these four implants.

Traditional implant treatment requires a separate implant for each missing tooth and months of healing between stages. All-on-4 dramatically streamlines this by:

- Using only four implants per arch to support a full set of teeth
- Placing the rear implants at an angle to maximise contact with available bone
- Often avoiding the need for bone grafting
- Delivering a fixed, non-removable result in as little as one to two days

Who is All-on-4 Suitable For?

All-on-4 is designed for patients who:

- Are missing all or most teeth in one or both jaws
- Have been told they are not suitable for individual implants due to bone loss
- Are dissatisfied with conventional dentures and want a permanent, fixed solution
- Want to restore full chewing function and a natural-looking smile

A thorough assessment including 3D imaging is conducted before any treatment to confirm suitability.

All-on-4 Investment

All-on-4 is one of the most significant dental investments a patient can make - and one of the most life-changing. Indicative pricing:

- Single arch (upper or lower): from approximately \$31,000
- Dual arch (both upper and lower): from approximately \$56,000

Final costs depend on individual clinical complexity, bone volume, materials, and whether any extractions or preparatory work are required. A detailed written quote is always provided before treatment begins.

Interest-free payment plans through Payright are available for All-on-4 treatment.

All-on-4 Locations Within Core Dental Group

All-on-4 dental implants are currently confirmed at:

- **Core Dental Caroline Springs** - 224-226 Caroline Springs Blvd, (03) 9363 7888. Features a dental prosthetist on-site and the most advanced imaging technology of any suburban Core Dental location (CBCT 3D, CEREC). - **Core Dental Berwick** - Shop 29, 1 O'Shea Rd, (03) 9132 4160. The group's most comprehensive location with over 10 years serving south-east Melbourne. Dental prosthetist on-site.

For patients at other Core Dental locations, our dentists provide a clinical assessment and, where appropriate, coordinate the surgical component through the specialist referral pathway at Collins Street Specialist Centre (CSSC).

The Collins Street Specialist Centre Pathway

Core Dental is part of the Smile Solutions Group, which includes Collins Street Specialist Centre (CSSC) in Melbourne CBD. CSSC is home to some of Australia's most experienced dental specialists, including oral surgeons, periodontists, and prosthodontists with extensive All-on-4 experience.

For complex All-on-4 cases - particularly those requiring significant bone grafting or maxillofacial surgical input - our dentists coordinate seamless referrals to CSSC, ensuring the highest standard of care.

Why Choose Core Dental Group for All-on-4?

- Part of the Smile Solutions Group - decades of implant expertise - Dental prosthetists on-site at multiple locations - Access to CSSC specialists for complex surgical needs - Transparent pricing with no hidden fees - Interest-free Payright payment plans - HICAPS on-the-spot health fund claiming at all locations - 7 locations across Melbourne for convenient follow-up care
