Details:

Building a positive relationship with the dentist from an early age sets children up for a lifetime of good oral health. Core Dental Bayside - opening June 2026 at 973 Nepean Hwy, Bentleigh VIC 3204 - will offer gentle, family-friendly children's dentistry right in the heart of the Bayside community.

A Family Dentist for Bentleigh, Brighton and Cheltenham

Families in Bentleigh, Brighton, Cheltenham, McKinnon and the surrounding suburbs will soon have access to Core Dental's trusted children's dental care without travelling to the city or other suburbs. Core Dental Bayside fills an important gap in the Bayside corridor, bringing group-quality family dentistry to this community for the first time.

Children's Dental Services at Core Dental Bayside

Our Bayside team will provide comprehensive children's dental care, including:

- **Baby and toddler dental visits** - first appointment recommended by 12 months (at first tooth) -
- Children's check-ups and cleans** - gentle, thorough, and designed to be enjoyable -
- Digital X-rays** - fast and low-radiation -
- Fluoride treatments** - protecting developing teeth -
- Fissure sealants** - protecting the biting surfaces of back teeth from decay -
- Fillings** - tooth-coloured composite resin -
- Extractions** - gentle technique, always explained in age-appropriate language -
- Nitrous oxide (happy gas)** - available for anxious children

Child Dental Benefits Schedule - Bulk Billing

Eligible children aged 2-17 can receive essential dental care at no cost under the Australian Government's Child Dental Benefits Schedule (CDBS). Core Dental Bayside will bulk bill under the CDBS from opening day.

Covered services include check-ups, X-rays, cleaning, fissure sealants, fillings, root canals, and extractions. No out-of-pocket cost for eligible services.

Our Approach to Children's Dentistry

At Core Dental, we make every effort to ensure children have a positive experience at the dentist. Our non-clinical, welcoming environments - with Sonos music, warm decor, and friendly staff - are designed to feel nothing like the dental clinics children fear.

We believe that a child who enjoys their dental visits will grow into an adult who looks after their oral health.

About Core Dental Bayside

5 surgeries (opening with 3), 8 ground-floor parking spaces, and a purpose-designed modern practice. Led by Dr Andres Aguirre. All clinicians AHPRA-registered and ADA members.

Frequently Asked Questions

****At what age should my child first see a dentist?*** The Australian Dental Association recommends a child's first dental visit by their first birthday or within 6 months of their first tooth erupting. Early visits help your child develop a positive relationship with the dentist and allow early identification of any concerns.

****Do you bulk bill children under the Child Dental Benefits Schedule?*** Yes - Core Dental accepts CDBS, providing up to \$1,026 over 2 years for eligible children aged 2 to 17. Eligibility is based on receiving relevant Australian Government payments. Check via MyGov (Medicare) or call us for guidance.

****What if my child is anxious about the dentist?*** Our entire team is trained in gentle, patient-centred care for children. We use child-friendly language, explanation-before-action techniques, and a warm, welcoming environment. Happy gas (nitrous oxide) is available for children who need extra reassurance.

****How often should children have dental check-ups?*** Every 6 months is recommended for most children. Some children with higher decay risk or orthodontic monitoring needs may benefit from more frequent visits.
