Details:

Bringing your child to the dentist early and regularly is one of the most important things you can do for their long-term health. At Core Dental Epping, we believe every child deserves a positive dental experience - one that builds confidence and healthy habits for life.

****When Should My Child First Visit the Dentist?****

We recommend your child's first dental visit by the age of 12 months, or when their first tooth appears. Early visits help us detect any concerns early, provide guidance on teething and diet, and most importantly, help your child become familiar with the dental environment before any treatment is ever needed.

****What We Offer for Children at Core Dental Epping****

- Gentle check-ups and cleans tailored to children's needs - Children's check-ups from \$80 - Digital X-rays (using the lowest possible radiation dose) - Fissure sealants to protect newly erupted permanent molars from decay - Fluoride treatments to strengthen developing teeth - Early assessment for orthodontic concerns - Guidance for parents on diet, fluoride, brushing techniques, and teething - Happy gas (nitrous oxide) available to help anxious children feel calm and comfortable

****On-Site Specialist Paediatric Dentist: Dr Aish Kesava****

Dr Aish Kesava (Dr Aiswariya Kesava) is our on-site Specialist Paediatric Dentist at Epping. Dr Kesava holds a DCD in Paediatric Dentistry from the University of Otago and has a special interest in children with dental anxiety. Her compassionate, family-centred approach has made her a favourite among Epping families. For children who need additional support, Dr Kesava can discuss sedation options to ensure treatment is completed comfortably.

****Child Dental Benefits Schedule - Bulk Billing****

Core Dental Epping bulk bills eligible children under the Child Dental Benefits Schedule (CDBS). Children aged 2 to 17 from families receiving eligible Australian Government payments may access up to \$1,026 in dental benefits over a two-year period, covering examinations, X-rays, cleaning, fissure sealing, fillings, and extractions.

To check your child's eligibility, visit MyGov (Medicare) or contact our practice - we are happy to help you understand what is covered.

****HICAPS On-Site****

We have HICAPS on-site for instant health fund rebate processing, so you only pay the gap on the day - no waiting for reimbursement.

****Creating Positive Dental Experiences****

We know that a child's early dental experiences shape their relationship with dental care for life. Our Epping team creates a warm, welcoming environment - from the non-clinical decor to our gentle, patient-centred approach. We explain everything to your child in age-appropriate language and always move at their pace.

For anxious children, we offer happy gas (nitrous oxide) - a safe, mild sedation that helps children relax while remaining fully conscious. It wears off within minutes of the appointment ending.

All clinicians at Core Dental Epping are AHPRA-registered and members of the Australian Dental Association.

Core Dental Epping has a Specialist Paediatric Dentist on-site, meaning children with complex dental needs are seen in the same convenient, familiar location. Our extended hours until 6:00 pm Monday to Friday are designed with working parents in mind - bring the children in after school pick-up without taking time off work. Located near Pacific Epping Shopping Centre and Epping Station, we are easily accessible from across Melbourne's northern growth corridor.
