Details:

Bringing your child to the dentist early and regularly is one of the most important things you can do for their long-term health. At Core Dental Wyndham, we believe every child deserves a positive dental experience - one that builds confidence and healthy habits for life.

When Should My Child First Visit the Dentist?

We recommend your child's first dental visit by the age of 12 months, or when their first tooth appears. Early visits help us detect any concerns early, provide guidance on teething and diet, and most importantly, help your child become familiar with the dental environment before any treatment is ever needed.

What We Offer for Children at Core Dental Wyndham

- Gentle check-ups and cleans tailored to children's needs - Children's check-ups from \$80 - Digital X-rays (using the lowest possible radiation dose) - Fissure sealants to protect newly erupted permanent molars from decay - Fluoride treatments to strengthen developing teeth - Early assessment for orthodontic concerns - Guidance for parents on diet, fluoride, brushing techniques, and teething - Happy gas (nitrous oxide) available to help anxious children feel calm and comfortable

Specialist Referral Pathway

Our Wyndham practice serves many families from the growing Hoppers Crossing and Werribee communities. Our dentists are skilled in providing gentle, child-friendly care and helping young patients feel at ease. For children who require specialist paediatric dental care, referrals to our group's Specialist Paediatric Dentists are readily available.

Child Dental Benefits Schedule - Bulk Billing

Core Dental Wyndham bulk bills eligible children under the Child Dental Benefits Schedule (CDBS). Children aged 2 to 17 from families receiving eligible Australian Government payments may access up to \$1,026 in dental benefits over a two-year period, covering examinations, X-rays, cleaning, fissure sealing, fillings, and extractions.

To check your child's eligibility, visit MyGov (Medicare) or contact our practice - we are happy to help you understand what is covered.

HICAPS On-Site

We have HICAPS on-site for instant health fund rebate processing, so you only pay the gap on the day - no waiting for reimbursement.

****Creating Positive Dental Experiences****

We know that a child's early dental experiences shape their relationship with dental care for life. Our Wyndham team creates a warm, welcoming environment - from the non-clinical decor to our gentle, patient-centred approach. We explain everything to your child in age-appropriate language and always move at their pace.

For anxious children, we offer happy gas (nitrous oxide) - a safe, mild sedation that helps children relax while remaining fully conscious. It wears off within minutes of the appointment ending.

All clinicians at Core Dental Wyndham are AHPRA-registered and members of the Australian Dental Association.

Located near Pacific Werribee Shopping Centre and serving one of Victoria's fastest-growing family communities, Core Dental Wyndham is well equipped to meet the dental needs of children at every stage of development. As a preferred provider for HCF, CBHS, and NIB, families with these health funds pay less out of pocket for children's dental care. Our on-site specialist team means orthodontic and periodontal concerns can be assessed at the same familiar location.
