## ## CEREC Same-Day Crowns

Core Dental South Melbourne is one of three Core Dental locations equipped with CEREC technology. CEREC (Chairside Economical Restoration of Esthetic Ceramics) allows crowns and other ceramic restorations to be created in the dental surgery on the same day, eliminating the need for temporary crowns and multiple appointments.

The process involves digital scanning of the tooth, computer-aided design of the crown, automated milling from a ceramic block, and final fitting - all in one appointment. Most patients find this far more convenient than the traditional two-appointment approach with a laboratory-made crown.

---

## ## Technology at South Melbourne

- CEREC same-day crown milling - Digital intraoral scanning - no physical impressions - Digital X-rays - Intraoral cameras - CAD/CAM ceramic restorations - HICAPS on-site

---

## ## Payment and Health Funds

- HICAPS on-site - all major health funds accepted with on-the-spot claiming - Payright interest-free payment plans up to 30 months - No-gap check-up and clean for eligible new patients with private health cover - Child Dental Benefits Schedule (bulk billing for eligible children 2-17) - Booking deposit required; refunded at appointment
