## Details:

Your smile is one of the first things people notice. At Core Dental Caroline Springs, our cosmetic dentistry services are designed to help you achieve the smile you have always wanted - whether that means brighter teeth, straighter edges, or a complete transformation.

### **\*\*Porcelain Veneers\*\***

Porcelain veneers are ultra-thin shells of custom-crafted ceramic bonded to the front surface of your teeth. They can correct:

- Discolouration that whitening cannot resolve
- Chipped or worn teeth
- Mild crowding or gaps
- Uneven tooth length or shape

Porcelain veneers are crafted by our skilled ceramist team to precisely match the shape, size, and translucency of natural teeth. Two appointments are typically required. Porcelain veneers are highly durable, with a lifespan of 10 to 25 years, and resist staining far better than natural enamel.

Porcelain veneers require some removal of tooth enamel and are considered a permanent treatment.

### **\*\*Composite Bonding - From \$250 Per Tooth\*\***

Composite bonding is a more conservative and affordable cosmetic option. Your dentist applies and sculpts tooth-coloured composite resin directly onto your teeth to correct chips, close small gaps, adjust shape, and improve colour - often in a single appointment with minimal or no tooth preparation.

Composite bonding starts from \$250 per tooth at Core Dental Caroline Springs and is a popular choice for younger patients or those seeking a reversible cosmetic enhancement.

### **\*\*Composite Veneers\*\***

For patients who want the effect of veneers without the cost or permanence of porcelain, composite veneers offer an excellent middle ground. Applied in a single appointment, they can dramatically improve the appearance of multiple teeth simultaneously.

### **\*\*Smile Makeovers\*\***

A smile makeover combines multiple cosmetic treatments - such as whitening, veneers, bonding, Invisalign, and crown replacement - into a comprehensive treatment plan designed around your unique

goals. At Core Dental Caroline Springs, your dentist will assess your teeth, gums, bite, and facial aesthetics to develop a plan that delivers harmonious, natural-looking results.

**\*\*Digital Smile Design - See Your Results Before We Start\*\***

At Caroline Springs, our digital smile design software creates a digital mockup of your proposed smile makeover before any tooth preparation begins. You can review the expected outcome, provide feedback, and feel confident before committing. This technology is exclusive to our Caroline Springs location within the Core Dental network.

Core Dental Caroline Springs is the only suburban Core Dental location featuring digital smile design software, allowing you to see a digital preview of your smile makeover before any tooth preparation begins. Dr Sherin Gad brings a special interest in restorative and aesthetic dentistry, delivering smile transformations that align with each patient's unique facial features.

**\*\*Dental Crowns and Bridges for Cosmetic Purposes\*\***

When teeth are significantly damaged or missing, dental crowns and bridges restore both function and aesthetics. Our porcelain crowns are colour-matched to your surrounding teeth and designed to blend seamlessly into your smile.

**\*\*Invisalign to Complete Your Smile\*\***

Cosmetic treatments achieve their best results when your teeth are well-aligned. Many patients combine Invisalign treatment with bonding, whitening, or veneers for a complete smile transformation. As an Invisalign Blue Diamond Provider, Core Dental Caroline Springs has the expertise to coordinate your orthodontic and cosmetic treatment as part of a single plan.

**\*\*Flexible Payment Plans\*\***

Cosmetic dentistry is an investment in your confidence. Payright interest-free payment plans allow you to spread the cost over up to 30 months with no interest. Fortnightly repayments make premium cosmetic treatment accessible.

Caroline Springs offers digital smile design technology and CBCT imaging alongside our cosmetic dentistry range, allowing complex smile makeover cases to be planned with a level of precision that is rare in Melbourne's suburbs. Multilingual consultations in Arabic, Bengali, and Farsi are available, and our CS Square location with free rear parking makes attending cosmetic appointments - even multi-stage ones - genuinely convenient.
