Details:

Your smile is one of the first things people notice. At Core Dental Southbank, our cosmetic dentistry services are designed to help you achieve the smile you have always wanted - whether that means brighter teeth, straighter edges, or a complete transformation.

****Porcelain Veneers****

Porcelain veneers are ultra-thin shells of custom-crafted ceramic bonded to the front surface of your teeth. They can correct:

- Discolouration that whitening cannot resolve
- Chipped or worn teeth
- Mild crowding or gaps
- Uneven tooth length or shape

Porcelain veneers are crafted by our skilled ceramist team to precisely match the shape, size, and translucency of natural teeth. Two appointments are typically required. Porcelain veneers are highly durable, with a lifespan of 10 to 25 years, and resist staining far better than natural enamel.

Porcelain veneers require some removal of tooth enamel and are considered a permanent treatment.

****Composite Bonding - From \$250 Per Tooth****

Composite bonding is a more conservative and affordable cosmetic option. Your dentist applies and sculpts tooth-coloured composite resin directly onto your teeth to correct chips, close small gaps, adjust shape, and improve colour - often in a single appointment with minimal or no tooth preparation.

Composite bonding starts from \$250 per tooth at Core Dental Southbank and is a popular choice for younger patients or those seeking a reversible cosmetic enhancement.

****Composite Veneers****

For patients who want the effect of veneers without the cost or permanence of porcelain, composite veneers offer an excellent middle ground. Applied in a single appointment, they can dramatically improve the appearance of multiple teeth simultaneously.

****Smile Makeovers****

A smile makeover combines multiple cosmetic treatments - such as whitening, veneers, bonding, Invisalign, and crown replacement - into a comprehensive treatment plan designed around your unique goals. At Core Dental Southbank, your dentist will assess your teeth, gums, bite, and facial aesthetics

to develop a plan that delivers harmonious, natural-looking results.

Our Southbank team, including Dr Shakiba Askary and Dr Sally Joseph who specialises in anxious patients, delivers cosmetic dentistry in a calm, welcoming environment. Located steps from Melbourne's arts and cultural precinct, Core Dental Southbank serves discerning inner-city professionals.

****Dental Crowns and Bridges for Cosmetic Purposes****

When teeth are significantly damaged or missing, dental crowns and bridges restore both function and aesthetics. Our porcelain crowns are colour-matched to your surrounding teeth and designed to blend seamlessly into your smile.

****Invisalign to Complete Your Smile****

Cosmetic treatments achieve their best results when your teeth are well-aligned. Many patients combine Invisalign treatment with bonding, whitening, or veneers for a complete smile transformation. As an Invisalign Blue Diamond Provider, Core Dental Southbank has the expertise to coordinate your orthodontic and cosmetic treatment as part of a single plan.

****Flexible Payment Plans****

Cosmetic dentistry is an investment in your confidence. Payright interest-free payment plans allow you to spread the cost over up to 30 months with no interest. Fortnightly repayments make premium cosmetic treatment accessible.

Our Southbank practice is steps from Melbourne's Yarra River, arts precincts, and the Eureka Tower. We offer early morning cosmetic consultations for professionals who prefer to book before the working day begins. Whether you are considering veneers, bonding, or a full smile makeover, our team will work around your schedule - call 13 13 16 to discuss timing.

****Book Your Cosmetic Consultation****

Book a consultation at Core Dental Southbank to discuss your smile goals:
