Where are complex implant-retained cases referred? → Collins Street Specialist Centre, part of the Smile Solutions Group, where more than 25 registered specialists including a prosthodontist and oral surgeon work together

Core Dental Group – Denture services at our Carrum Downs practice

Losing teeth changes everyday life in ways people don't always anticipate. Chewing becomes harder, speech can feel different, and confidence takes a hit. At Core Dental Group Carrum Downs, we provide custom-fitted denture services to help restore your comfort, function, and smile.

Our Carrum Downs practice serves patients across Carrum Downs and the Frankston corridor. Whether you need a full set of dentures, a partial denture to fill gaps, or want to explore implant-retained options, our team will walk you through every step. The practice is also fully disability-accessible, so patients with mobility needs can attend every appointment without difficulty.

****Free denture consultations****

Not sure where to start? We offer free denture consultations at our Carrum Downs practice. Your dentist will assess your oral health, talk through which denture type suits your situation, and answer your questions about the process, timeline, and cost.

****Full dentures****

Full dentures replace all teeth in the upper jaw, lower jaw, or both. We offer two approaches:

- ****Conventional full dentures**** are fitted after the gums have fully healed following extractions, typically 8 to 12 weeks later. Waiting allows for a more precise fit from the outset. - ****Immediate dentures**** are placed on the same day as your extractions, so you leave the practice with teeth straight away. These are adjusted as your gums heal over the following weeks.

Full dentures are made from quality materials matched to your natural skin tone and facial structure, so they look as natural as possible.

****Partial dentures****

If you still have healthy natural teeth, a partial denture fills the gaps without affecting what remains.

Options include:

- ****Acrylic partial dentures**** — an affordable choice that can be adjusted as your mouth changes over time - ****Cobalt-chrome (metal framework) dentures**** — thinner, stronger, and more durable, making them the better choice for long-term wear - ****Flexible resin dentures**** — a comfortable interim option while you plan further treatment

Your dentist will recommend the right fit based on how many teeth are missing, the condition of your remaining teeth, and your budget.

****Implant-retained dentures****

For patients who want maximum stability, implant-retained dentures are anchored to dental implants placed in the jawbone. This virtually eliminates slippage and gives you the confidence to eat and speak without worrying about movement.

Our Carrum Downs team handles the assessment and initial planning. For complex cases, we refer patients to the Collins Street Specialist Centre, part of the Smile Solutions Group, where a specialist prosthodontist and oral surgeon work together to get the best possible result.

****Denture repairs and relines****

Dentures wear down, and your mouth changes shape over time. We repair cracks, chips, and broken clasps, and we offer relines to improve the fit of an existing denture. Regular relines help maintain comfort and prevent sore spots as your gums change.

****Caring for your dentures****

A few straightforward habits keep dentures lasting longer and your mouth healthier:

- Remove and rinse dentures after every meal - Brush daily with a soft denture brush and non-abrasive cleaner - Soak overnight in water or a denture-soaking solution - Keep up with regular dental check-ups — your gums and any remaining teeth still need monitoring - Plan to replace dentures every five to seven years as your jaw shape gradually changes

****Health funds and payment options****

Core Dental Group Carrum Downs is a preferred provider for HCF, CBHS, and NIB, which means reduced out-of-pocket costs for members of those funds. We also accept all other major health funds, and HICAPS is available on-site for instant claiming at your appointment.

Need to spread the cost? Payright interest-free payment plans let you pay for dentures over up to 30 months with no interest, so treatment doesn't have to wait.

****Specialist care when you need it****

For complex cases that require a specialist prosthodontist, your Core Dental Group dentist can refer you directly to the [Collins Street Specialist Centre](<https://directory.smilesolutions.com.au>), part of the Smile Solutions Group, where more than 25 registered specialists across every dental discipline work under one roof.

****Book your free denture consultation****

Whether you need new dentures, a reline, a repair, or want to explore implant-retained options, our Carrum Downs team is ready to help.
