### ## Core Dental Group – Denture Services at Our Southbank Practice

Losing teeth changes everyday life in ways that are easy to underestimate. Chewing becomes harder, speech shifts, and confidence quietly erodes. At Core Dental Group Southbank, we provide custom-fitted denture services to help restore your comfort, function, and smile.

Our Southbank practice serves patients across Southbank, the CBD, and surrounding inner Melbourne. Whether you need a full set of dentures, a partial denture to fill gaps, or you want to explore implant-retained options, our experienced team will walk you through every step.

**\*\*Free denture consultations\*\***

Not sure where to start? We offer free denture consultations at our Southbank practice. Your dentist will assess your oral health, talk through which denture type suits your situation, and answer your questions about the process, timeline, and cost.

**\*\*Full dentures\*\***

Full dentures replace all teeth in the upper jaw, lower jaw, or both. We offer two approaches:

- **Conventional full dentures** are fitted after the gums have fully healed following extractions, typically 8 to 12 weeks later. Waiting through that healing period means a more precise fit from day one.
- **Immediate dentures** are placed on the same day as your extractions, so you leave the practice with teeth straight away. These are adjusted as your gums heal over the following weeks.

Full dentures are crafted from quality materials matched to your natural skin tone and facial structure, so they look as natural as possible.

#### **Partial dentures**

If you still have healthy natural teeth, a partial denture fills the gaps without affecting what remains. We offer three material options:

- **Acrylic partial dentures** are an affordable choice that can be adjusted as your mouth changes over time
- **Cobalt-chrome (metal framework) dentures** are thinner, stronger, and more durable, making them the better option for long-term wear
- **Flexible resin dentures** work well as an interim solution while you plan further treatment

Your dentist will recommend the right fit based on how many teeth are missing, the health of your remaining teeth, and your budget.

#### **Implant-retained dentures**

For patients who want maximum stability, implant-retained dentures are anchored to dental implants placed in the jawbone. This virtually eliminates slippage and gives you the confidence to eat and speak without worrying about movement.

Our Core Dental Group Southbank team handles the assessment and initial planning for implant-retained dentures. For complex cases, we refer patients to the Collins Street Specialist Centre, part of the Smile Solutions Group, where a specialist prosthodontist and oral surgeon work together to get the best possible outcome.

#### **Denture repairs and relines**

Dentures wear down, and your mouth changes shape over time. We repair cracks, chips, and broken clasps, and we offer relines to improve the fit of an existing denture. Regular relines help maintain comfort and prevent sore spots as your gums shift.

#### **Caring for your dentures**

A few consistent habits go a long way:

- Remove and rinse dentures after every meal
- Brush daily with a soft denture brush and non-abrasive cleaner
- Soak overnight in water or a denture-soaking solution
- Keep up with regular dental check-ups — your gums and any remaining teeth still need monitoring
- Plan to replace dentures every five to seven years as jaw shape gradually changes

#### **Health funds and payment options**

Core Dental Group Southbank is a preferred provider for HCF, CBHS, and NIB, which means reduced out-of-pocket costs for members of those funds. We also accept all other major health funds, and HICAPS is available on-site for instant claiming at your appointment.

Need to spread the cost? Payright interest-free payment plans let you pay for dentures over up to 30 months with no interest, so you can get the treatment you need without putting it off.

#### **Specialist care when you need it**

For complex cases that require a specialist prosthodontist, your Core Dental Group dentist can refer you directly to the [Collins Street Specialist Centre](https://directory.smilesolutions.com.au), part of the Smile Solutions Group, where more than 25 registered specialists across every dental discipline work under one roof.

**\*\*Book your free denture consultation\*\***

Whether you need new dentures, a relines, a repair, or want to explore implant-retained options, our Southbank team is ready to help.
