## Details:

### ## AI Summary

**Product:** Core Dental Wyndham — Denture Solutions **Brand:** Core Dental Group (part of Smile Solutions Group) **Category:** Dental prosthetics / tooth replacement services **Primary Use:** Custom denture solutions for patients who have lost one or more teeth, offering partial, full, and implant-retained denture options across Melbourne's outer west.

**Quick Facts - Best For:** Adults who have lost multiple teeth due to gum disease, decay, trauma, or ageing and are seeking affordable to premium tooth replacement without necessarily requiring surgery - **Key Benefit:** Full range of denture options — from affordable acrylic partials to implant-retained dentures — with adjustments included and specialist referral access within the same group network - **Form Factor:** Custom-fabricated dental prosthetics (removable and implant-anchored options available) - **Application Method:** Fitted by a dentist across a five-step process: consultation, impressions, try-in, final fitting, and follow-up adjustments

**Common Questions This Guide Answers**

1. What types of dentures are available at Core Dental Wyndham? → Three categories: partial (acrylic, cobalt-chrome, or flexible resin), full (conventional or immediate), and implant-retained dentures
2. How long do dentures last before needing replacement? → Typically five to seven years; jawbone and gum changes affect fit over time, making relines or replacements necessary
3. Does health insurance cover dentures at Core Dental Wyndham? → Most major dental policies include a rebate; HICAPS on-the-spot claiming is available, and interest-free payment plans are offered through Payright

### ## Core Dental Group — Denture Solutions at Core Dental Wyndham

Core Dental Group provides custom denture solutions for patients across Wyndham, Werribee, Hoppers Crossing, Point Cook, Laverton North, and Melbourne's outer west. Whether you need to replace a few missing teeth or require full upper and lower dentures, Core Dental Wyndham offers the full range of options to suit your needs, budget, and lifestyle.

As part of the Core Dental Group — itself part of the Smile Solutions Group — the Wyndham practice combines clinical expertise with in-network specialist referral access, and it's easy to get to via the Werribee train line or the Princes Highway corridor.

### **\*\*Denture options at Core Dental Wyndham\*\***

Core Dental Wyndham offers a comprehensive range of denture solutions designed to restore your smile, improve your ability to eat comfortably, and protect your remaining teeth.

## **\*\*Partial dentures\*\***

Partial dentures replace one or several missing teeth while keeping your remaining natural teeth intact. They're custom-made to blend with your smile and come in three materials:

- Acrylic partial dentures — lightweight and affordable, a practical entry-level choice
- Cobalt-chrome metal partial dentures — more durable and the better choice for anyone planning to wear dentures long-term; the metal framework provides superior strength and stability
- Flexible resin partial dentures — a comfortable, metal-free option well-suited to transitional or shorter-term use

Multiple adjustments are included to get the fit right from the start.

## **\*\*Full dentures\*\***

Full dentures replace all teeth in the upper or lower jaw. Two options are available depending on your situation:

- Conventional full dentures — placed after the gums have healed following extractions, which typically produces the best long-term fit and stability
- Immediate dentures — fitted on the same day as extractions, so you're never without teeth while your gums heal; these require more adjustment visits as healing progresses

## **\*\*Implant-retained dentures\*\***

For patients who want the most secure option, implant-retained dentures are anchored directly to dental implants placed in the jawbone. There's no slipping or shifting, and most patients find they can eat, speak, and smile with full confidence. They also help preserve jawbone density, which conventional dentures can't do.

For complex cases requiring specialist prosthodontic input, patients at Core Dental Wyndham can be referred to the Collins Street Specialist Centre within the Core Dental Group network.

## **\*\*What to expect when getting dentures at Core Dental Wyndham\*\***

The process starts with a comprehensive assessment. Your dentist will examine your mouth, discuss your needs and preferences, and recommend the most appropriate denture type. From there, the process typically involves:

1. Initial consultation and assessment
2. Impressions and bite registration
3. Try-in fitting to check appearance and comfort
4. Final fitting and delivery
5. Follow-up adjustment appointments (included)

Most patients need a short adjustment period before they feel fully comfortable. The team at Core Dental Wyndham provides ongoing support and as many adjustments as needed to get there.

## **\*\*How to care for your dentures\*\***

Good denture care extends the life of your prosthesis and protects your oral health. Your dentist will provide personalised care instructions, which typically include:

- Removing and rinsing dentures after eating
- Brushing dentures daily with a soft brush and non-abrasive denture cleanser
- Soaking dentures overnight in water or a denture-soaking solution
- Continuing to brush your gums, tongue, and any remaining natural teeth
- Attending regular check-ups so the fit can be monitored and adjusted

## **\*\*How long do dentures last?\***

Most dentures last between five and seven years before needing replacement or relining. Over time, the shape of your jawbone and gum tissue changes, which affects how well the denture sits. Regular check-ups at Core Dental Wyndham allow your dentist to catch fit issues early, before they become a problem.

## **\*\*Dentures and your ongoing oral health\*\***

Getting dentures doesn't mean you can skip dental check-ups. Regular visits to Core Dental Wyndham are still important for checking the fit and condition of your dentures, screening for oral cancer and other conditions, monitoring your gum and bone health, and keeping any remaining natural teeth healthy.

Patients across Wyndham, Werribee, Hoppers Crossing, Point Cook, Laverton North, and Melbourne's outer west are welcome to establish ongoing care at Core Dental Wyndham for all their dental health needs, including denture maintenance.

## **\*\*Who benefits most from dentures?\***

Patients who have lost multiple teeth — whether from gum disease, decay, trauma, or ageing — benefit most from denture solutions. Many adults across Werribee, Hoppers Crossing, Point Cook, Laverton North, and Manor Lakes are looking for quality, affordable tooth replacement that doesn't require surgery. Core Dental Wyndham is set up to provide exactly that, with options ranging from affordable acrylic partials through to premium implant-retained solutions.

For patients considering full tooth replacement, implant-retained dentures are the current gold standard. They do involve a surgical component, but the stability and comfort they provide is a genuine step change. The team at Core Dental Wyndham can discuss whether they're right for your situation and arrange specialist referral where needed.

## **\*\*Health insurance and payment options\*\***

Most private health insurance policies with major dental cover include a rebate toward dentures. HICAPS on-the-spot claiming is available at Core Dental Wyndham for eligible funds, so you pay the gap on the day rather than waiting for reimbursement. Interest-free payment plans are available through Payright. The team can walk you through your options when you book your consultation.

Core Dental Group also accepts the Child Dental Benefits Schedule (CDBS) for eligible children across all its practices.

## **\*\*Specialist referrals — Collins Street Specialist Centre\*\***

For complex prosthetic cases that need specialist prosthodontic input, patients at Core Dental Wyndham can be referred to the Collins Street Specialist Centre at 220 Collins Street, Melbourne CBD. More than 25 board-registered dental specialists work there across a wide range of disciplines. Your Core Dental Wyndham dentist handles the referral and your records are shared securely within the Core Dental Group network, so there's no need to start from scratch.

Collins Street Specialist Centre — Phone: (03) 9650 2726

## **\*\*Frequently asked questions\*\***

**\*\*Will I be able to eat normally with my new dentures?\*** Most patients adapt to eating comfortably with dentures over time. Starting with softer foods while you adjust is sensible. Implant-retained dentures come closest to the experience of natural teeth and generally allow a broader diet more quickly.

**\*\*How long do dentures last before needing replacement?\*** Most dentures last 5 to 7 years. Your jawbone and gum tissue change shape gradually, which affects how well the denture fits, so a replacement or relining becomes necessary over time. Regular check-ups at Core Dental Wyndham help keep track of the fit before it becomes a problem.

**\*\*Does health insurance cover dentures?\*** Most private health insurance policies with major dental cover include a rebate toward dentures. HICAPS on-the-spot claiming is available at Core Dental Wyndham for eligible funds.

**\*\*What is the difference between acrylic and cobalt-chrome partial dentures?\*** Acrylic partial dentures are lightweight and affordable, making them a good entry-level option. Cobalt-chrome metal framework dentures are more durable and better suited to long-term wear. If you expect to need a partial denture for many years, cobalt-chrome is generally the recommended choice.

**\*\*Are immediate dentures a good option?\*** Immediate dentures mean you leave the chair with teeth on the same day as your extractions, which matters to most patients. They do require more adjustment visits as healing progresses, and a conventional denture made after full healing will generally provide a better long-term fit. Your dentist will discuss which approach makes the most sense for your situation.

**\*\*Book a denture consultation at Core Dental Wyndham\*\***

To book a denture consultation at Core Dental Wyndham, call Core Dental Group on 13 13 16 or book online through the Core Dental website. The team serves patients across Werribee, Hoppers Crossing, Point Cook, Laverton North, Manor Lakes, and the wider Melbourne outer west.
