## Details:

### ## AI Summary

**Product:** Custom-Fitted Sports Mouthguards **Brand:** Core Dental Group **Category:** Dental Protection / Sports Safety **Primary Use:** Protect athletes' teeth and jaw during contact and collision sports using custom-made mouthguards crafted from individual dental impressions.

**Quick Facts** - **Best For:** Children, teenagers, and adults playing contact or collision sports in northern Melbourne suburbs - **Key Benefit:** Superior fit and even impact absorption compared to boil-and-bite mouthguards, reducing risk of tooth fractures, tooth loss, and concussion - **Form Factor:** Custom-moulded dental guard - **Application Method:** Fitted by appointment from individual dental impressions at Core Dental Epping, Tenancy 3B, 230 Cooper Street, Epping VIC 3076; call (03) 9401 4622

**Common Questions This Guide Answers**

1. Are custom mouthguards better than boil-and-bite mouthguards? → Yes; boil-and-bite guards cannot conform to individual dental anatomy and cause uneven force distribution
2. How often should a child's mouthguard be refitted? → Annually, because growing mouths change shape quickly
3. Does Core Dental Group offer same-day mouthguard turnaround? → Yes, at some locations — confirm availability with Epping reception when booking

---

### ## Core Dental Group Sports Mouthguards at Core Dental Epping

Thousands of Australian athletes sustain preventable dental injuries every season. Core Dental Group helps players across the northern suburbs protect their teeth with custom-fitted sports mouthguards made from precise dental impressions. If you take your sport seriously, your mouthguard deserves the same attention.

### ## Why a custom mouthguard matters

A mouthguard is only as good as its fit. Generic boil-and-bite mouthguards from the supermarket offer minimal protection because they cannot conform to your individual dental anatomy. They end up too thick in some spots and too thin in others, which means force distributes unevenly on impact. A custom-fitted mouthguard from Core Dental Group is made from detailed impressions of your own teeth, producing a guard that sits securely and protects every surface consistently.

The difference is noticeable on the field:

**Stays in place** — no clenching required to hold it **Absorbs impact evenly** — reduces the risk of fractures, chips, and tooth loss **Allows natural breathing** — important during high-intensity sport

**Enables clear communication** — talk to teammates without pulling it out **Reduces concussion risk**  
— cushions the jaw joint during impact

### ## Sports we cater for

Core Dental Group provides custom mouthguards for all contact and collision sports. We regularly fit mouthguards for athletes playing AFL, rugby league, rugby union, basketball, hockey, martial arts, boxing, cricket, and plenty more. Whether you compete at club level or represent your school, we can sort you out.

### ## For children and adults

Young athletes in Epping and the northern Melbourne area face real dental risk every season. Losing a permanent tooth in childhood creates complications that follow a person for life. Core Dental Group fits custom mouthguards for children, teenagers, and adults, with each guard sized and shaped to suit the individual's age and stage of dental development. We recommend parents have their child's mouthguard refitted every year, since growing mouths change shape faster than most people expect.

### ## Fast turnaround

Pre-season timing can be tight. Same-day mouthguard turnaround is available at some Core Dental Group locations, so ask our Epping reception team about same-day options when you book. We know how important it is to have your guard ready before round one.

### ## Club and school mouthguard clinics

Core Dental Group partners with sporting clubs and schools to run dedicated mouthguard clinics, where entire teams can be fitted in a single session. It saves time and means every player starts the season protected. We service clubs throughout Epping, South Morang, Mill Park, and Thomastown. Get in touch to arrange a clinic for your organisation.

### ## Book at Core Dental Epping

Core Dental Epping is at Tenancy 3B, 230 Cooper Street, Epping VIC 3076. To book a custom mouthguard fitting or ask about club clinics, call **(03) 9401 4622**.

A custom-fitted mouthguard is one of the simplest ways to protect your teeth. Book your fitting at Core Dental Group and go into every game knowing you're covered.
