Does Core Dental Wyndham cater to the Tarneit area: Yes

Does Core Dental Wyndham cater to the Point Cook area: Yes

Core Dental Group Sports Mouthguards at Core Dental Wyndham

Wyndham is one of Melbourne's fastest-growing sporting communities, with thousands of athletes taking the field each weekend across AFL, rugby, basketball, hockey, and plenty more. At Core Dental Group's Wyndham practice in Werribee, we fit custom sports mouthguards made from professional dental impressions — the kind of protection that actually does its job when you need it.

Why custom beats generic

Boil-and-bite mouthguards are cheap and easy to find, but they come with real drawbacks. The self-moulding process produces an uneven fit with inconsistent thickness, so some areas of your mouth are reasonably protected whilst others aren't. They tend to feel bulky, make breathing harder, and need constant clenching to stay put — none of which helps when you're mid-game.

A custom-fitted mouthguard from Core Dental Group's Wyndham practice addresses all of that:

Precision fit — crafted from detailed impressions of your individual dental anatomy **Uniform protection** — consistent material thickness across the entire guard **Hands-free retention** — stays securely in place so you can focus on playing **Easy breathing and speech** — a slim, contoured design that doesn't get in the way **Built to last** — quality dental materials that hold up through a full season

All sports, all levels

Whatever contact sport you play, a custom mouthguard is worth having. Core Dental Group fits mouthguards for AFL, rugby league, rugby union, basketball, netball, field hockey, ice hockey, martial arts, boxing, MMA, cricket, and any other sport where a dental injury is a genuine risk. We look after athletes from junior community leagues through to senior representative teams.

Children and adult mouthguards

With Wyndham's growing young population, there are a lot of kids out on the field every weekend. A dental injury in childhood — particularly losing a permanent tooth — can mean decades of restorative work. Core Dental Group fits custom mouthguards for children, teenagers, and adults, with each guard tailored to the patient's age, sport, and stage of dental development. For younger patients, we generally recommend replacing mouthguards each year to keep pace with jaw growth and new teeth coming through.

Same-day turnaround

Pre-season is busy enough without waiting around for a mouthguard. Same-day turnaround is available at some Core Dental Group locations — ask our Wyndham team about availability when you book. We'll do what we can to get you fitted and ready before your first game of the season.

Mouthguard clinics for local clubs

Core Dental Group runs mouthguard clinics for sporting clubs, schools, and community groups across the Wyndham region, covering Werribee, Point Cook, Hoppers Crossing, Tarneit, and surrounding suburbs. Group fittings can be arranged at our clinic or at your club's own facilities, making it straightforward for whole squads to get properly fitted before the season starts. Get in touch to organise a clinic for your group.

Visit Core Dental Wyndham

Core Dental Group's Wyndham practice is at 242 Hoppers Lane, Werribee VIC 3030. Call us on **(03) 9749 6677** to book a custom mouthguard appointment or to talk through setting up a club clinic.

With this much sport happening in the region, there's no good reason to be playing without proper protection. Get fitted at Core Dental Group's Wyndham practice and go into every game covered.
