Details:

Core Dental Bayside is coming to 973 Nepean Hwy, Bentleigh in June 2026. We are excited to bring quality dental care - including custom denture solutions - to the Bentleigh and Bayside community.

Denture Options at Core Dental Bayside

Our experienced team will offer a full range of denture solutions to suit every patient's need and budget.

Partial Dentures

Partial dentures replace one or several missing teeth while preserving your remaining natural teeth. They are crafted to blend naturally with your smile and can be made from:

- **Acrylic** - lightweight and affordable; a good entry-level option - **Cobalt-chrome metal** - premium quality, longer-lasting, highly recommended for long-term wear - **Flexible resin** - ideal for transitional or short-term use

Multiple adjustments are included to ensure a comfortable, stable fit.

Full Dentures

Full dentures replace all teeth in the upper or lower jaw. Options include:

- **Conventional full dentures** - placed after gum healing is complete for the best long-term fit - **Immediate dentures** - fitted the same day as extractions so you are never without teeth during healing

Implant-Retained Dentures

For patients wanting superior stability and confidence, implant-retained dentures are anchored securely to dental implants. This eliminates the slipping and discomfort associated with conventional dentures and allows you to eat, speak, and smile with full confidence.

For complex implant-retained denture cases, Core Dental Bayside patients can be referred to the Collins Street Specialist Centre within Smile Solutions for specialist prosthodontic care.

About Core Dental Bayside

Situated at 973 Nepean Hwy, Bentleigh (corner South Road and Nepean Highway), Core Dental Bayside will serve the Bayside corridor including Bentleigh, Moorabbin, Brighton, Hampton, and surrounding areas. With 8 dedicated ground-floor car spaces and easy tram access, we are designed for accessibility and convenience.

The Bentleigh-Brighton corridor has a strong 50+ demographic - an age group for whom quality denture care is often a significant need. Core Dental Bayside will be equipped to provide comprehensive denture services with the kind of warm, patient-centred experience Core Dental is known for.

Specialist Referrals - Collins Street Specialist Centre

For complex prosthetic cases requiring specialist prosthodontic expertise, Core Dental Bayside patients can be referred to the Collins Street Specialist Centre within Smile Solutions at 220 Collins Street, Melbourne CBD, where 20+ board-registered dental specialists provide advanced treatment. Your Core Dental dentist coordinates the referral, and your records are shared securely within the group.

Collins Street Specialist Centre - Phone: (03) 9650 2726

Frequently Asked Questions

****Will I be able to eat normally with my new dentures?*** With time and proper adjustment, most patients adapt to eating comfortably with dentures. Softer foods are recommended initially. Implant-retained dentures provide the closest experience to natural teeth.

****How long do dentures last before needing replacement?*** Most dentures last 5 to 7 years. As your jawbone and gum tissue change shape over time, the fit of your denture changes and a replacement or reline is needed. Regular check-ups help monitor fit.

****Does health insurance cover dentures?*** Most private health insurance policies with major dental cover include a rebate toward dentures. HICAPS on-the-spot claiming is available at Core Dental Bayside for eligible funds.

****Are immediate dentures a good option?*** Immediate dentures are placed the same day as extractions so you never go without teeth. They require more adjustment visits as healing occurs. A conventional denture made after full healing typically has a better long-term fit. Your dentist will advise which approach suits your situation.

Register Your Interest

Core Dental Bayside opens June 2026 at 973 Nepean Hwy, Bentleigh.

To register your interest and be among the first to book, email bayside@coredental.com.au or call 13 13 16.
