## Details:

Losing teeth affects more than your smile - it affects how you eat, how you speak, and how you feel about yourself. At Core Dental Epping, our on-site Dental Prosthetist provides custom-fitted dentures designed to restore your confidence and function.

### **\*\*On-Site Dental Prosthetist\*\***

Ahmed Saoud, our experienced Dental Prosthetist, provides on-site denture services at Epping. With over 20 years in the industry and a background as both a dental technician and prosthetist, Ahmed delivers dentures that fit comfortably and look natural.

Having an on-site prosthetist means your dentures are designed, fitted, and adjusted without needing to visit a separate clinic. Your dentist and prosthetist work together to ensure your dentures complement your overall oral health and any remaining natural teeth.

### **\*\*Full Dentures\*\***

Full dentures replace all teeth in the upper arch, lower arch, or both. We offer:

- **\*\*Conventional full dentures\*\*** - fitted once the gums have fully healed following extractions (typically 8-12 weeks) - **\*\*Immediate dentures\*\*** - placed on the same day as your extractions so you are never without teeth; adjusted as your gums heal

Full dentures are crafted from high-quality materials selected to match your natural skin tone and facial structure. Multiple appointments are included to ensure the best possible fit and comfort.

### **\*\*Partial Dentures\*\***

If you have some remaining natural teeth, a partial denture fills the gaps. Options include:

- **\*\*Acrylic partial dentures\*\*** - affordable and adjustable as your mouth changes - **\*\*Cobalt-chrome (metal framework) dentures\*\*** - thinner, stronger, and more durable; the premium option for long-term partial denture wearers - **\*\*Flexible resin dentures\*\*** - a comfortable, interim option

### **\*\*Implant-Retained Dentures\*\***

For patients who want the security of a denture that does not move, implant-retained dentures anchor your denture to dental implants for superior stability. This option virtually eliminates denture slippage and allows you to eat more freely.

Core Dental Epping is open until 6:00 pm Monday to Friday, making denture adjustment appointments convenient for working patients. The practice is approximately 10 minutes walk from Epping Station.

### **\*\*Caring for Your Dentures\*\***

Your prosthetist will provide detailed aftercare instructions. Key points include:

- Remove and rinse dentures after every meal - Brush dentures daily with a soft denture brush and non-abrasive cleaner - Soak dentures overnight in water or a denture-soaking solution - Attend regular check-up appointments - your gums and remaining teeth still need monitoring - Dentures typically require replacement every five to seven years as your jaw shape changes

**\*\*Payright Interest-Free Payment Plans\*\***

Dentures represent a significant investment in your quality of life. Payright interest-free payment plans allow you to spread the cost over up to 30 months with no interest, making full denture treatment accessible without financial stress.

**\*\*HICAPS On-Site\*\***

We have HICAPS on-site at Core Dental Epping for immediate health fund claiming at the time of your appointment.

**\*\*Book a Denture Consultation\*\***

Whether you need new dentures, a reline, a repair, or are considering implant-retained dentures, our team is here to help. Book at Core Dental Epping:

- Phone: (03) 9401 4622 - Call nationally: 13 13 16 - Online: [coredental.com.au](http://coredental.com.au) - Email: [epping@coredental.com.au](mailto:epping@coredental.com.au)

Located near Pacific Epping Shopping Centre and approximately 10 minutes from Epping Station, Core Dental Epping is easy to reach from across Melbourne's northern and north-eastern suburbs. Our extended hours until 6:00 pm Monday to Friday mean denture consultations and fittings can be scheduled after work or school pick-up - ideal for the many busy families in the Epping and Wollert growth corridors.

**\*\*Visit Us\*\***
