Details:

Core Dental Glenferrie is coming to 827 Glenferrie Rd, Hawthorn in June 2026. We look forward to bringing our full range of dental services - including expertly crafted denture solutions - to the Hawthorn and inner-eastern community.

Denture Options at Core Dental Glenferrie

Our experienced team will offer a comprehensive range of denture solutions designed to restore your smile, confidence, and quality of life.

Partial Dentures

Partial dentures are an effective, affordable way to replace one or several missing teeth while keeping your remaining natural teeth intact. Options include:

- **Acrylic dentures** - lightweight and cost-effective; a practical entry-level option
- **Cobalt-chrome metal dentures** - premium quality, thinner profile, more durable, and strongly recommended for long-term wear
- **Flexible resin dentures** - comfortable for transitional or short-term use

We include multiple adjustments to achieve the best possible fit and comfort.

Full Dentures

Full dentures replace all teeth in an arch. We offer:

- **Conventional full dentures** - best long-term fit after full gum healing is complete
- **Immediate dentures** - placed the same day as tooth removal so you leave the practice with a smile

Implant-Retained Dentures

Implant-retained dentures offer the gold standard in stability. Fixed to dental implants, they function and feel much closer to natural teeth - no movement, no slipping, and full confidence when eating and speaking. For complex implant-retained denture cases, our Glenferrie team can coordinate referrals to the Collins Street Specialist Centre within Smile Solutions.

Why Glenferrie?

Core Dental Glenferrie will be Core Dental's first eastern suburbs location - bringing the quality, warmth, and accessibility of the Core Dental group to Hawthorn, Kew, Camberwell, and the surrounding inner east. The Glenferrie Road location is well-served by public transport (Glenferrie Station), with nearby street parking.

Our Glenferrie practice will offer:

- HICAPS on-the-spot health fund claiming at all major funds - Payright interest-free payment plans (up to 30 months, no deposit) - All clinicians AHPRA-registered and ADA members - Child Dental Benefits Schedule (CDBS) bulk billing for eligible children

Frequently Asked Questions

****How long does the denture process take?*** From initial impressions to final fitting, a full set of dentures typically takes 4 to 6 weeks including multiple appointments for impressions, measurements, wax try-in, and final fitting. This ensures the best possible fit and aesthetics.

****Can I eat normally with dentures?*** With a well-fitted denture and time to adjust, most patients can eat a broad diet comfortably. Very hard or sticky foods may cause difficulty with conventional full dentures. Implant-retained dentures offer the closest experience to natural teeth.

****How often do dentures need to be replaced?*** Dentures should be assessed regularly and replaced approximately every 5 to 7 years as the jawbone and gum tissue change shape over time. A poorly fitting denture can cause sore spots, difficulty eating, and bone loss.

****Does health insurance cover dentures?*** Many private health insurance policies with major dental cover provide a rebate toward dentures. HICAPS on-the-spot claiming is available at Core Dental Glenferrie. Check with your fund for your specific entitlements.

Specialist Referrals - Collins Street Specialist Centre

For complex prosthetic cases requiring specialist prosthodontic input, Core Dental Glenferrie patients can be referred to the Collins Street Specialist Centre within Smile Solutions at 220 Collins Street, Melbourne CBD. Your Core Dental dentist coordinates the referral, and your records are shared securely within the group.

Collins Street Specialist Centre - Phone: (03) 9650 2726
