Details:

At Core Dental Southbank - Your Local Dental Practice - we understand that tooth loss can affect your confidence, comfort, and quality of life. Our experienced team at 55 City Rd, Southbank provides quality denture services to help you eat, speak, and smile with ease once more.

Denture Services Available at Southbank

Our Southbank practice offers a range of denture solutions tailored to your individual needs. Whether you need to replace a single tooth, several teeth, or a full arch, we will discuss all available options with you and provide a clear, written treatment plan before any work begins.

Partial Dentures

Partial dentures replace one or more missing teeth while your remaining natural teeth stay in place. They are removable, affordable, and can be made from several materials:

- **Acrylic partial dentures** - A comfortable entry-level option - **Cobalt-chrome metal partial dentures** - Premium durability, highly recommended for long-term wear - **Flexible resin partial dentures** - A softer, short-term option

Full Dentures

Full dentures replace all teeth in the upper or lower jaw. We offer:

- **Conventional full dentures** - Fitted after your gums have healed following extractions; best long-term fit - **Immediate dentures** - Placed on the same day as extractions so you are never without teeth during healing

All dentures include multiple adjustment appointments to ensure a comfortable, natural-feeling fit.

Implant-Retained Dentures

For patients wanting the best stability and confidence, implant-retained dentures are anchored to dental implants. They eliminate the movement and discomfort of conventional full dentures, allowing you to eat and speak with full confidence. Ask our team if this option is right for you.

Our Team at Core Dental Southbank

Denture work at Core Dental Southbank is carried out by our experienced clinicians. **Dr Joanne Ong** (BHLthSciDent/MDent, La Trobe, 2022) is Mandarin Chinese and Cantonese-speaking. **Dr Jacalyn Madden** (BSc Biomed, DMD, Sydney) has expertise in restorative dentistry. **Dr Shakiba Askary** (BHS, MDent, La Trobe) is Farsi-speaking and experienced in a wide range of dental restorations.

For complex prosthetic cases, the Core Dental group includes specialist dental prosthetists at other locations who can assist with advanced cases. Your Southbank dentist will coordinate the right support for your needs.

Specialist Referrals - Collins Street Specialist Centre

For complex implant-retained denture cases or cases requiring prosthodontic specialist input, Core Dental Southbank patients can be referred to the Collins Street Specialist Centre within Smile Solutions at 220 Collins Street, Melbourne CBD, where 20+ board-registered dental specialists provide advanced treatment. Your Core Dental dentist coordinates the referral, and your records are shared securely within the group.

Collins Street Specialist Centre - Phone: (03) 9650 2726

Frequently Asked Questions

****How long do dentures last?*** Dentures generally last 5 to 7 years before they need to be replaced, as your jawbone and gum tissue change shape over time. Regular check-ups allow us to monitor the fit and recommend adjustments or replacements as needed.

****Will I be able to eat normally with dentures?*** Yes - with time and adjustment, most patients can eat a broad, varied diet. Some firm or sticky foods may need to be avoided with full conventional dentures. Implant-retained dentures offer significantly better chewing ability.

****How long does it take to get used to dentures?*** Adjustment typically takes a few weeks. You may notice increased saliva production, minor speech changes, and mild discomfort initially - all normal and temporary. Follow-up appointments help fine-tune the fit.

****Are there alternatives to dentures for replacing missing teeth?*** Yes - dental implants or bridges are alternatives depending on your individual situation. Your dentist will discuss all options at your consultation, including the pros and cons of each approach for your case.

What to Expect

Your denture journey typically involves:

1. A comprehensive assessment and discussion of your options
2. Precise impressions and measurements for a custom fit
3. A trial fitting to check appearance and comfort
4. Final fitting with adjustments as needed
5. Follow-up appointments included

Making Dentures Affordable

We accept all major health funds with HICAPS on-the-spot claiming. Payright interest-free payment plans are available for eligible patients, allowing you to spread treatment costs over up to 30 months with no interest.
