Details:

Losing teeth affects more than your smile - it affects how you eat, how you speak, and how you feel about yourself. At Core Dental Wyndham, our on-site Dental Prosthetist provides custom-fitted dentures designed to restore your confidence and function.

****On-Site Dental Prosthetist****

Ahmed Saoud, our Dental Prosthetist, provides on-site denture services at our Wyndham practice. Ahmed's extensive background in both dental technology and prosthetics means he can design dentures that look natural and function perfectly.

Having an on-site prosthetist means your dentures are designed, fitted, and adjusted without needing to visit a separate clinic. Your dentist and prosthetist work together to ensure your dentures complement your overall oral health and any remaining natural teeth.

****Full Dentures****

Full dentures replace all teeth in the upper arch, lower arch, or both. We offer:

- ****Conventional full dentures**** - fitted once the gums have fully healed following extractions (typically 8-12 weeks) - ****Immediate dentures**** - placed on the same day as your extractions so you are never without teeth; adjusted as your gums heal

Full dentures are crafted from high-quality materials selected to match your natural skin tone and facial structure. Multiple appointments are included to ensure the best possible fit and comfort.

****Partial Dentures****

If you have some remaining natural teeth, a partial denture fills the gaps. Options include:

- ****Acrylic partial dentures**** - affordable and adjustable as your mouth changes - ****Cobalt-chrome (metal framework) dentures**** - thinner, stronger, and more durable; the premium option for long-term partial denture wearers - ****Flexible resin dentures**** - a comfortable, interim option

****Implant-Retained Dentures****

For patients who want the security of a denture that does not move, implant-retained dentures anchor your denture to dental implants for superior stability. This option virtually eliminates denture slippage and allows you to eat more freely.

Core Dental Wyndham is a preferred provider for HCF, CBHS, and NIB health funds. Ask our team about your health fund entitlements for denture treatment. HICAPS on-site enables instant claiming.

****Caring for Your Dentures****

Your prosthetist will provide detailed aftercare instructions. Key points include:

- Remove and rinse dentures after every meal - Brush dentures daily with a soft denture brush and non-abrasive cleaner - Soak dentures overnight in water or a denture-soaking solution - Attend regular check-up appointments - your gums and remaining teeth still need monitoring - Dentures typically require replacement every five to seven years as your jaw shape changes

****Payright Interest-Free Payment Plans****

Dentures represent a significant investment in your quality of life. Payright interest-free payment plans allow you to spread the cost over up to 30 months with no interest, making full denture treatment accessible without financial stress.

****HICAPS On-Site****

We have HICAPS on-site at Core Dental Wyndham for immediate health fund claiming at the time of your appointment.

****Book a Denture Consultation****

Whether you need new dentures, a reline, a repair, or are considering implant-retained dentures, our team is here to help. Book at Core Dental Wyndham:

- Phone: (03) 9749 6677 - Call nationally: 13 13 16 - Online: coredental.com.au - Email: wyndham@coredental.com.au

Core Dental Wyndham serves one of Melbourne's fastest-growing communities with a specialist-rich clinical team near Pacific Werribee Shopping Centre. As a preferred provider for HCF, CBHS, and NIB, patients with these health funds benefit from reduced out-of-pocket denture costs. Our on-site Dental Prosthetist Ahmed Saoud attends regularly, ensuring continuity and the highest quality of fit and finish for every denture patient.
