Same-Day Emergency Appointments from June 2026

Core Dental Bayside will hold dedicated emergency appointment slots every single day — Monday to Friday 8:00 am–6:00 pm and Saturday 8:30 am–1:30 pm. No referral required. Call and we'll do our best to see you the same day.

****Emergency consultation fee: from ****

Your dentist will assess your situation, provide immediate pain relief where possible, and give you a written, itemised quote before any further work proceeds. You're never committed to additional treatment on the spot.

Dental Emergencies We'll Treat at Bayside

Our Bayside team will handle the full range of urgent dental situations:

- Severe toothache or throbbing dental pain
- Chipped, cracked, or broken tooth
- Knocked-out tooth (dental avulsion) — time-critical
- Lost or dislodged filling or crown
- Dental abscess or facial/jaw swelling
- Swollen, bleeding, or painful gums
- Broken dentures or damaged orthodontic appliances
- Soft tissue injuries to the lips, cheeks, or tongue
- Post-extraction complications (dry socket, bleeding)
- Orthodontic wire or bracket emergency

****When to call 000 instead:**** Significant facial swelling, difficulty swallowing, difficulty breathing or opening the mouth are signs of potentially life-threatening spreading infection. Go directly to an emergency department.

Our Clinical Team at Core Dental Bayside

Core Dental Bayside will be led by **Dr Andres Aguirre** — an experienced general dentist providing comprehensive emergency and general dental care from opening day.

All Core Dental clinicians are AHPRA-registered and members of the Australian Dental Association.

For complex emergencies beyond our scope — specialist endodontics, oral surgery, maxillofacial assessment, or periodontal emergencies — Core Dental Bayside patients have access to the **Collins Street Specialist Centre (CSSC)**, the Smile Solutions Group's specialist hub at Collins and Swanston Streets, Melbourne CBD. This network of specialist endodontists, oral surgeons, periodontists, and prosthodontists is accessible via referral.

What to Do in a Dental Emergency

Knocked-out tooth: Handle by the crown (not the root). Rinse gently with milk or saline. Try to reinsert in the socket — if you can, hold it there and call us immediately. If reinsertion is not possible, keep the tooth in milk or between your cheek and gum. Time is absolutely critical — the chance of saving the tooth drops significantly after 30–60 minutes.

Toothache: Warm salt-water rinse. Paracetamol or ibuprofen as directed on packaging. Do not put aspirin directly on the gum or tooth. Call us for a same-day assessment.

Dental abscess or swelling: Cold compress to the outside of the face. Do not delay — call us or go to an emergency department if swelling is spreading rapidly or involves your throat or breathing.

Lost filling or crown: Temporary dental cement (available at pharmacies) can protect the exposed area temporarily. Avoid chewing on that side until you're seen.

About the Bayside Location

Core Dental Bayside is situated at **973 Nepean Hwy, Bentleigh** — at the corner of South Road and Nepean Highway — with **8 dedicated ground-floor car spaces**. Tram routes on Nepean Highway and bus services provide easy access from Brighton, Moorabbin, Hampton, East Bentleigh, and Sandringham.
