Details:

When a dental emergency strikes, you need care quickly. At **Core Dental Epping**, we hold dedicated emergency appointment slots every single day — ensuring the northern Melbourne community has access to urgent dental care without waiting days for an appointment.

Whether you're dealing with sudden toothache, a broken tooth, or a dental abscess, our experienced team is ready to help.

Call us now: ****13 13 16 | (03) 9401 4622****

Same-Day Emergency Appointments

Core Dental Epping is open Monday to Friday 8:00 am–6:00 pm and Saturday 8:00 am–1:30 pm. Emergency appointments are available daily — no referral needed. Call and we'll find you the earliest available slot.

****Emergency consultation fee: from ****

Your dentist will assess your situation, provide pain relief where possible, and recommend the appropriate treatment. A written, itemised quote is provided before any further work proceeds.

Dental Emergencies We Treat at Epping

Our team manages the full range of urgent dental situations:

- Severe toothache or throbbing dental pain - Chipped, cracked, or broken tooth - Knocked-out tooth (dental avulsion) — time-critical - Lost or dislodged filling or crown - Dental abscess or jaw/facial swelling - Bleeding gums or mouth - Broken dentures or damaged orthodontic appliances - Soft tissue injuries — cuts to lips, cheeks, tongue - Dental pain in children - Post-extraction complications

****Call 000 if you have:**** Significant facial swelling, difficulty swallowing, difficulty breathing or opening your mouth. These symptoms may indicate a spreading dental infection requiring hospital treatment.

Our Clinical Team at Core Dental Epping

Emergency care at Epping is delivered by our experienced, highly regarded team:

- **Dr Alysha Soltys** (BSc, DDS, University of Melbourne) — with Core Dental since 2014; preventive and restorative focus; experienced in complex emergency assessments - **Dr Marina Ghobrial** (BHSoc Dent, MDent, La Trobe) — widely praised for her calm, gentle approach with anxious patients; a standout for nervous emergency presentations - **Dr Maria Blanchard** (BDC, ADC-certified) — speaks English and Spanish; community-focused; serving Epping since 2015 - **Dr Tristan Balthazaar** (BSc, BBiomedSc, DDS, University of Melbourne) — comprehensive restorative and emergency care

Specialist Paediatric Dentist Dr Aish Kesava (DCD Paediatric Dentistry, University of Otago) also consults at Epping — specialist expertise for children's dental emergencies, trauma, and anxious young patients.

For complex cases requiring specialist endodontics, oral surgery, or maxillofacial assessment, we refer to the **Collins Street Specialist Centre (CSSC)** through the Smile Solutions Group specialist network.

Advanced Technology for Emergency Diagnosis

Core Dental Epping features **CEREC same-day crown technology**, **digital intraoral scanning**, and **laser dentistry** — tools that make emergency diagnosis and same-day treatment more accurate and efficient than many suburban practices.

When an emergency involves a cracked tooth, abscess, or root fracture, precise imaging is essential for the right diagnosis and treatment. Our technology ensures we don't miss what matters.

What to Do While You Travel to Us

Knocked-out tooth: Hold by the crown, not the root. Rinse gently and re-implant in the socket if possible, or store in milk. Call us immediately — tooth survival drops significantly with time.

Toothache: Warm salt-water rinse. Over-the-counter ibuprofen or paracetamol as directed. Avoid putting aspirin directly on the tooth.

Broken tooth or lost filling: Temporary dental cement (pharmacy) can help. Avoid chewing on the affected side.

Facial swelling: Cold compress only. If swelling is spreading rapidly or involves your throat — call 000.

Pain Management and Comfort for Anxious Patients

Dental emergencies are stressful, and arriving in pain heightens anxiety. Our Epping team — particularly Dr Marina Ghobrial — is especially skilled with nervous patients. We move quickly to relieve pain using local anaesthetic, and for anxious patients, **happy gas (nitrous oxide)** and **IV sedation** are available.

Core Dental Epping is known for its welcoming ambience — Glasshouse scented candles, Sonos music, a non-clinical atmosphere, and a team that genuinely cares. Even emergency appointments reflect this standard.

Health Fund and Payment

Emergency dental treatments are commonly covered by private health insurance. ****HICAPS on-site**** for instant claiming at every appointment. ****Payright interest-free plans**** available for up to 30 months for treatment packages.

Getting to Core Dental Epping
