****Dental Emergencies We Treat****

Our team at Core Dental Southbank manages a wide range of urgent dental situations:

- Severe toothache or throbbing dental pain - Chipped, cracked, or broken tooth - Knocked-out tooth (dental avulsion) - act immediately, this is time-critical - Lost or dislodged filling or crown - Dental abscess or swelling - Bleeding gums or mouth - Broken dentures or orthodontic appliances - Swollen jaw or face - Mouth ulcers or soft tissue injuries

****What to Do in a Dental Emergency****

For a knocked-out tooth: Handle it by the crown, not the root. Rinse gently with milk or saline. If possible, place it back in the socket and hold in place. If not, keep it in milk or between your cheek and gum. Seek care immediately - the sooner you arrive, the better the chance of saving the tooth.

For severe swelling involving difficulty swallowing or breathing, call 000 immediately. These symptoms may indicate a spreading infection requiring hospital treatment.

For all other emergencies, call Core Dental Southbank on (03) 8547 0780 or 13 13 16.

****HICAPS On-Site****

We have HICAPS on-site for immediate health fund claiming, minimising out-of-pocket costs even in an emergency.

****No Referral Needed****
