### ## Same-Day Emergency Appointments

Core Dental Wyndham is open Monday to Friday 8:00 am–6:00 pm and Saturday 8:00 am–1:30 pm. Emergency appointments are available daily. No referral required — call and our team will get you in as soon as possible, often the same day.

**\*\*Emergency consultation fee: from \*\***

Your dentist assesses your situation, provides immediate pain relief where possible, and recommends the right course of treatment. A written, itemised quote is provided before any further work proceeds.

### ## Dental Emergencies We Treat

Our Wyndham team handles urgent dental situations including:

- Severe toothache or throbbing dental pain
- Chipped, cracked, or broken tooth
- Knocked-out tooth (dental avulsion) — time-critical
- Lost or dislodged filling or crown
- Dental abscess or facial/jaw swelling
- Swollen, bleeding, or painful gums
- Broken dentures or damaged orthodontic appliances
- Soft tissue injuries — cuts to lips, cheeks, tongue
- Dental pain following wisdom tooth eruption
- Post-extraction complications (dry socket, excessive bleeding)

**\*\*When to call 000 instead:\*\*** Significant facial swelling, difficulty swallowing, difficulty breathing or opening the mouth are signs of potentially life-threatening spreading infection. Go directly to an emergency department.

### ## Our Clinical Team at Core Dental Wyndham

Emergency care at Wyndham is delivered by a highly experienced team:

- **Dr Darren Manoharan** (BDS, University of Queensland) — Lead Dentist; 15 years of experience; special interests in implants, crown and bridge, and Invisalign; complex restorative emergencies are his specialty - **Dr Anika Moyeed** (BHSc, MDent) — speaks English and Bengali; preventive and restorative focus - **Dr Alpa Lodhiya** (BDSc, University of Melbourne; GradCert Mental Health) — 20+ years in private practice; complex medical conditions; calm, patient-centred approach

**Specialist Periodontist Dr Nupur Kataria** (BDS, Doctorate in Clinical Dentistry — Periodontics, University of Adelaide; Fellow RACDS; former Senior Lecturer, University of Adelaide Dental School) consults at Wyndham — the only Core Dental location with a specialist periodontist on-site. For emergency gum infections, periodontal abscesses, or peri-implant complications, Dr Kataria is available.

**Specialist Orthodontist Dr David Austin** (BDSc University of Melbourne; MDS Orth, University of Hong Kong; MOrth RCS Edinburgh) also consults at Wyndham for orthodontic emergencies.

For cases requiring specialist endodontic, oral surgery, or maxillofacial assessment, we refer to the **Collins Street Specialist Centre (CSSC)** through the Smile Solutions Group specialist network.

### ## What to Do in a Dental Emergency

**Knocked-out tooth:** Handle by the crown only. Rinse gently. Try to reinsert in the socket — hold it there and call us. If reinsertion is not possible, keep in milk or between your cheek and gum. Time is critical.

**Toothache:** Warm salt-water rinse. Paracetamol or ibuprofen as directed. Avoid placing aspirin directly on the gum or tooth.

**Abscess or facial swelling:** Cold compress to the outside of the face. Do not delay — call us immediately. If swelling is rapidly spreading or affects your throat, call 000.

**Lost filling or crown:** Temporary dental cement (pharmacy) can protect exposed tooth structure until your appointment. Avoid the affected side.

### ## Pain Management and Anxiety Care

Our team understands that emergency dental care is stressful. Dr Alpa Lodhiya's training in mental health, combined with Dr Manoharan's calm, experienced demeanour, creates a reassuring environment even for the most anxious emergency patients.

Happy gas (nitrous oxide) and IV sedation options are available at Wyndham for patients who need additional anxiety management during emergency treatment.
