

# Endodontist Melbourne - Core Dental

Canonical: <https://core-dental-group.directory.norg.ai/healthcare-services/dental-specialists/endodontist-melbourne-core-dental/>

## Description:

Endodontics is a highly specialised field that focuses on the treatment of the tooth pulp (containing blood supply and nerves) and the tissues surrounding the root(s) of a tooth. When the tooth pulp becomes diseased or injured, root canal treatment performed by your endodontist will allow the tooth to be saved, thereby maintaining function and aesthetics. Core Dental's endodontist works closely with general dentists to provide the best possible dental treatment at the highest standards.
