Details:

Core Dental Epping is proud to be part of the Core Dental Group - an Invisalign Blue Diamond Provider, the highest Invisalign provider tier in Australia. With over 750 Invisalign starts per year across our network, we bring unmatched experience and expertise to every clear aligner treatment.

Whether you have crowded teeth, spacing issues, or a bite concern, Invisalign at our Epping practice offers a discreet, comfortable, and effective path to a straighter smile.

****What Is Invisalign?***

Invisalign uses a series of clear, removable plastic aligners custom-made to gradually shift your teeth into their ideal position. Unlike traditional braces, there are no metal brackets or wires. You can remove your aligners to eat, drink, brush, and floss - making them a popular choice for adults and teens who want orthodontic treatment without the visibility.

****Invisalign Options and Pricing***

We offer the full range of Invisalign treatment types to suit different cases and budgets:

- Invisalign Express - from \$4,400 (minor corrections or relapse after previous orthodontic treatment) - Invisalign Lite - from \$7,800 (mild to moderate crowding or spacing) - Invisalign Moderate - from \$9,600 (a wide range of bite and alignment issues) - Invisalign Comprehensive - from \$11,300 (complex cases requiring unlimited aligners)

All Invisalign packages at Core Dental include a complimentary consultation, digital records and ClinCheck simulation (valued at \$300), OPG and lateral ceph X-rays, and retainers at the conclusion of treatment.

****Specialist Orthodontic Care***

We are currently rolling out specialist orthodontic services at Epping, with Dr Yassin joining our team to provide expert Invisalign oversight.

****Invisalign Teen***

Invisalign Teen is available at Epping, perfect for school-aged patients who want a discreet orthodontic solution without metal brackets.

****Digital Technology: iTero Scanner***

We use the iTero intraoral scanner to take precise digital impressions of your teeth - no uncomfortable trays or putty required. The iTero scanner creates a 3D model of your mouth and allows us to show you

a digital preview of your expected results before any treatment begins.

****Complimentary Whitening****

Patients who pay for their Invisalign treatment in full receive a complimentary take-home teeth whitening kit - helping you get the most from your new smile.

****Flexible Payment Plans****

We understand that orthodontic treatment is an investment. That is why we offer Payright interest-free payment plans, allowing you to spread the cost over up to 30 months with no interest. Fortnightly repayments make treatment accessible and manageable.

****Invisalign Price Match Guarantee****

If you have received a written quote from a registered specialist orthodontist, we will match it and beat it by 5%. We are committed to making the highest-quality Invisalign treatment genuinely accessible.

****How to Get Started****

Your Invisalign journey begins with a complimentary consultation at our Epping practice. We will assess your teeth, discuss your goals, and show you a ClinCheck simulation of your expected results - all before you commit to anything.

Core Dental Epping is a popular Invisalign destination for Melbourne's northern suburbs, with our practice conveniently located near Pacific Epping Shopping Centre and approximately 10 minutes from Epping Station. Working parents and commuters appreciate our extended hours until 6:00 pm on weekdays - stop in for your Invisalign check-in on the way home, without rearranging your day.

Invisalign Blue Diamond - A Group Achievement

The Smile Solutions Group holds Invisalign Blue Diamond status - one of the highest provider tiers awarded by Align Technology, the maker of Invisalign. Blue Diamond status is achieved across the group as a whole, reflecting the combined volume and clinical quality of Invisalign treatments delivered across both Smile Solutions and Core Dental locations.

This group-wide recognition means patients at Core Dental Epping are part of a dental network with one of the highest Invisalign provider levels in Australia. Complex Invisalign cases or cases requiring orthodontic specialist input can be referred to Collins Street Orthodontics or the Collins Street Specialist Centre within Smile Solutions - ensuring patients throughout the Smile Solutions Group have access to the full scope of orthodontic care when needed.
