Your Invisalign Team at Core Dental Glenferrie

Core Dental Glenferrie is Core Dental's first eastern suburbs location. The practice opens with a dedicated clinical team drawing from Core Dental Group's deep pool of experienced Invisalign practitioners — the group completes 750+ Invisalign cases per year across its network. The lead Glenferrie clinician will be confirmed and profiled ahead of the June 2026 opening.

Glenferrie patients will also have access to specialist orthodontic consultation through Core Dental's specialist orthodontist network, including ****Dr David Austin**** (BDS Sc Melbourne; MDS Orth, University of Hong Kong; MOrth RCS Edinburgh) who sees patients at Caroline Springs and Wyndham. Complex cases can be referred for specialist assessment and the treatment plan managed jointly.

Invisalign Blue Diamond Provider

Core Dental Group holds ****Invisalign Blue Diamond Provider**** status — the highest tier from Align Technology, awarded to practices completing 750+ Invisalign treatments per year. This reflects genuine, high-volume clinical expertise that translates into better outcomes across all case types.

What Blue Diamond status means for you: - Access to the most experienced Invisalign providers in Australia - Clinicians regularly treating complex cases, not just straightforward ones - Priority access to latest Invisalign innovations - Core Dental Group's Price Match Guarantee — beat any comparable written quote by 5%

Frequently Asked Questions

****What are Invisalign prices at Core Dental Glenferrie?*** Invisalign Express from \$4,400 | Lite from \$7,800 | Moderate from \$9,600 | Comprehensive from \$11,300. All packages include complimentary consultation, iTero digital scan, ClinCheck simulation, all aligner sets, and retainers at completion. A pay-in-full discount is also available. Call 13 13 16 or register at glenferrie@coredental.com.au.

****Who will be the Invisalign practitioner at Core Dental Glenferrie?*** Core Dental Glenferrie's lead clinician will be confirmed and announced ahead of the June 2026 opening. The practice operates within Core Dental Group's Blue Diamond Provider network — all Glenferrie Invisalign patients benefit from group-wide clinical protocols, specialist orthodontic referral pathways, and the collective expertise of practitioners who complete 750+ Invisalign cases per year. Register at glenferrie@coredental.com.au for updates.

****Is Core Dental Glenferrie a specialist Invisalign provider?*** Core Dental Group holds Invisalign Blue Diamond Provider status — the highest tier in Australia, requiring 750+ Invisalign treatments annually. Core Dental Glenferrie operates within this group-wide Blue Diamond framework, giving patients access to one of Australia's most experienced Invisalign networks. Complex cases can be referred for specialist orthodontic consultation within the group.

****How long does Invisalign treatment take at Core Dental Glenferrie?*** Treatment duration depends on case complexity. Express (minor corrections) is approximately 3 months. Lite cases typically 6–12 months. Moderate 12–18 months. Comprehensive cases up to 24 months. Your ClinCheck digital treatment plan will show your estimated timeline before you commit to any aligners.

****Is Invisalign suitable for my Hawthorn/Kew/Camberwell lifestyle?*** Invisalign is discreet, removable, and designed for active adult and teen lifestyles. You can eat, drink, and socialise normally. There are no dietary restrictions and no metal brackets to irritate the mouth. Appointments every 6–8 weeks minimise disruption to busy schedules.

****When does Core Dental Glenferrie open for Invisalign consultations?*** Core Dental Glenferrie opens June 2026 at 827 Glenferrie Rd, Hawthorn VIC 3122. Register your interest at glenferrie@coredental.com.au or call 13 13 16 to be notified when bookings open.

****What happens after Invisalign treatment — do I need retainers?*** Yes — retainers are essential after all orthodontic treatment and are included in your quoted Invisalign price. Without retainers, teeth will shift back over time. Your dentist will recommend the most appropriate retainer type and wearing schedule for your case.

Invisalign Aftercare: Caring for Your Aligners

Starting your Invisalign journey is an exciting step. Here is everything you need to know to get the best results from your clear aligner treatment.

Wearing Your Aligners

Your aligners must be worn for a **minimum of 22 hours per day**. They should only be removed for eating, drinking anything other than plain cold water, and cleaning your teeth. If aligners are worn for less than 22 hours per day, treatment may be extended to compensate.

Inserting Your Aligners

Each aligner is labelled with a number and "U" (upper) or "L" (lower) so you always know which is which. To insert, gently push the aligner over your front teeth first, then apply equal pressure with your fingertips at the back teeth until the aligner clicks into position. Do not bite your aligners into place, as this can damage them.

Aligner Chewies

We recommend using Aligner Chewies for 10 to 15 minutes each day, especially in the first few days of a new aligner. These small soft plastic rolls help seat the aligner fully against your teeth, ensuring optimal fit and tooth movement. Move the Chewie around your mouth as you bite down on it.

Removing Your Aligners

Using your fingertips, start at the back teeth on one side and gently tug the aligner free, working your way around to the other side. Take extra care if you have attachments (the small tooth-coloured bumps placed on certain teeth to assist with movement).

Can I Eat and Drink with Aligners In?

Always remove your aligners before eating or drinking anything except cold water. Food and coloured drinks can stain the aligners and increase the risk of decay. Before re-inserting aligners after eating, brush and floss your teeth ideally, or at minimum rinse your mouth thoroughly.

Cleaning Your Aligners

Clean your aligners before each insertion using cold water and a soft toothbrush without toothpaste. Soaking in cool water with a teaspoon of white vinegar, or using Aligner Brite cleaning tablets, removes stains and bacteria effectively. **Never use hot water, denture cleaners, or mouthwash** as these can damage the plastic.

Storing Your Aligners

When not in your mouth, always store aligners in their provided case. Never place them in a tissue or pocket, where they can be accidentally thrown out or damaged.

Managing Discomfort

It is normal to experience mild pressure or discomfort for the first few days after switching to a new aligner. This is a sign the aligners are working and typically settles within two to three days. Over-the-counter pain relief can help if needed.

Speech

Some people notice a very slight temporary lisp when they first begin wearing aligners. This typically resolves within a few days as the tongue adjusts. Regular speaking will help speed up the adjustment.

Mouthguards During Invisalign Treatment

You still need to wear a protective mouthguard when playing contact sport during Invisalign treatment. Your aligners are not designed for impact protection. At Core Dental, we fabricate custom-fit mouthguards at a discounted rate for active Invisalign patients.

How Often Do Aligners Change?

Your orthodontic provider at Core Dental will outline your specific aligner change schedule. Depending on your treatment plan, aligners may change every five days, weekly, or every two weeks.

For any questions about your Invisalign treatment, call Core Dental on ****13 13 16**** or visit coredental.com.au.
