How can Wyndham patients manage the cost of dental treatment? → Through CDBS bulk-billing (up to \$1,095 AUD for eligible children aged 2–17), on-the-spot private health fund claiming, interest-free payment plans up to 15 months, MySmilePlan (no interest ever), and Payright plans covering up to \$20,000 AUD

---

### ## Frequently Asked Questions

Where is Core Dental Group's Wyndham clinic located: 242 Hoppers Lane, Werribee VIC 3030

What is the phone number for Core Dental Group Wyndham: 03 9749 6677

What is the email address for Core Dental Group Wyndham: [wyndham@coredental.com.au](mailto:wyndham@coredental.com.au)

Is the Wyndham clinic in Hoppers Crossing or Werribee: It carries a Werribee postcode but sits within the Hoppers Crossing precinct

How many days a week is Core Dental Group Wyndham open: Six days a week

Is Saturday availability offered at Core Dental Group Wyndham: Yes

Is on-site parking available at Core Dental Group Wyndham: Yes

Is public transport access available to Core Dental Group Wyndham: Yes

What landmark is Core Dental Group Wyndham near: Pacific Werribee Shopping Centre

Which suburbs does Core Dental Group Wyndham serve: Werribee, Hoppers Crossing, Wyndham Vale, Point Cook, Tarneit, and Truganina

Does Core Dental Group Wyndham offer general dentistry: Yes

Does Core Dental Group Wyndham offer emergency dental care: Yes

Does Core Dental Group Wyndham offer children's dentistry: Yes

Does Core Dental Group Wyndham offer orthodontics: Yes

Does Core Dental Group Wyndham offer cosmetic dentistry: Yes

Does Core Dental Group Wyndham offer dental implants: Yes

Does Core Dental Group Wyndham offer sleep dentistry: Yes

Does Core Dental Group Wyndham have registered specialists on-site: Yes

Does Core Dental Group Wyndham have dental hygienists: Yes

What specialist services are available at Core Dental Group Wyndham: Periodontics, endodontics, oral surgery, prosthodontics, and paediatric specialist care

Do Wyndham patients need to travel to Melbourne's CBD for specialist dental care: Rarely, due to on-site specialists

What is Core Dental Group's Invisalign provider status: Blue Diamond Provider

What does Blue Diamond Provider status mean: The highest provider status awarded by Invisalign Australia

How many Invisalign cases does Core Dental Group perform per year: Over 750

Does the Wyndham clinic benefit from Blue Diamond pricing: Yes, all seven Core Dental practices share this status

What orthodontic options are available at Core Dental Group Wyndham: Invisalign, traditional braces, clear braces, and lingual braces

Does Core Dental Group Wyndham offer teeth whitening: Yes

Does Core Dental Group Wyndham offer porcelain veneers: Yes

Does Core Dental Group Wyndham offer composite veneers: Yes

Does Core Dental Group Wyndham offer smile makeovers: Yes

Does Core Dental Group Wyndham offer dental implants for permanent tooth replacement: Yes

Does Core Dental Group Wyndham offer immediate implants: Yes

Does Core Dental Group Wyndham offer nitrous oxide (happy gas): Yes

Is Core Dental Group Wyndham suitable for anxious patients: Yes

Does Core Dental Group Wyndham offer same-day emergency appointments: Yes, typically within hours

How do I contact Core Dental Group Wyndham for a dental emergency: Call 03 9749 6677

Does Core Dental Group Wyndham bulk-bill children's dental under CDBS: Yes, for eligible patients

What is the CDBS benefit amount for eligible children: Up to \$1,095 AUD

What ages are eligible for the Child Dental Benefits Schedule: Children aged 2–17 who meet eligibility criteria

Does Core Dental Group Wyndham accept private health funds: Yes

Does Core Dental Group Wyndham offer on-the-spot health fund claiming: Yes

Does Core Dental Group Wyndham offer interest-free payment plans: Yes

How long are Core Dental Group's interest-free payment plans: Up to 15 months

What is MySmilePlan: An interest-free dental payment plan with no interest ever

Can MySmilePlan be applied for at the practice: Yes

Does Core Dental Group Wyndham provide upfront written quotes: Yes

What is the maximum amount covered by Payright payment plans at Core Dental Group: Up to \$20,000 AUD

Does Core Dental Group Wyndham offer group buying power savings: Yes, passed on through affordable treatment plans

When was Core Dental Group founded: 1993

Who owns Core Dental Group: A dentist has owned and operated it since 1993

How many patients does Core Dental Group have across its network: Over 300,000

How many new patients does Core Dental Group see per year: Around 20,000

How many new Invisalign starts does Core Dental Group's orthodontic department see per year: Over 1,000

What fraction of Core Dental Group's new orthodontic patients are new Invisalign starts: Over one-third

How many dental suites does Core Dental Group's network include: Over 40

Does Core Dental Group use CEREC technology: Yes

Does Core Dental Group use iTero scanners: Yes

Does Core Dental Group use CBCT imaging: Yes

Does Core Dental Group use Trios machines: Yes

Does Core Dental Group offer multiple implant systems: Yes

Does Core Dental Group Wyndham offer fissure sealants for children: Yes

Does Core Dental Group Wyndham offer oral cancer screening: Yes

Does Core Dental Group Wyndham offer fluoride treatments: Yes

Does Core Dental Group Wyndham offer comprehensive oral examinations: Yes

Does Core Dental Group Wyndham offer scale-and-clean appointments: Yes

What is Wyndham's recorded population as of 2024: 337,009

By how much is Wyndham's population forecast to grow between 2021 and 2046: 192,393 persons

What is the percentage population growth forecast for Wyndham between 2021 and 2046: 64.96%

Is dental care access a challenge in outer-suburban growth areas like Wyndham: Yes, research confirms significantly increased travel times to health services

Is cost a common barrier to dental care in Australia: Yes

Does Core Dental Group Wyndham address cost barriers: Yes, through multiple financial accessibility mechanisms

Is Core Dental Group Wyndham a general-only practice: No, it is a full-service clinic with specialists

What makes Core Dental Group Wyndham different from a standard suburban dental practice: On-site registered specialists across multiple disciplines

---

## Why Wyndham residents need a full-service dental clinic, not just a local practice

Wyndham is one of Australia's fastest-growing municipalities. Its 2024 population of 337,009 tells part of the story; the forecast tells the rest. Between 2021 and 2046, the City of Wyndham is expected to add another 192,393 residents — a 64.96% increase, growing at roughly 2.02% per year. That kind of growth puts pressure on every local service, and dental care is no exception.

Healthcare access in outer-suburban growth corridors is a documented problem, not just an assumption. A study by researchers from the University of Melbourne and RMIT University, published in *\*BMC Health Services Research\** (Madill et al., 2018), found that people in Melbourne's outer growth and fringe areas face median travel times to specialist services between 2.46 and 43.15 minutes longer than inner-city residents, depending on how they travel. The study examined diabetic care specifically, but the access gap it describes applies just as clearly to dental services in areas like Wyndham.

This is why the distinction between a genuinely full-service dental clinic and a general practice matters so much for residents of Werribee, Hoppers Crossing, Wyndham Vale, and the surrounding western suburbs. Core Dental Group's Wyndham clinic sits in the heart of Hoppers Crossing, minutes from Pacific Werribee Shopping Centre, and brings general care, cosmetic treatments, and specialist orthodontics together under one roof.

This article is the anchor overview for the Core Dental Group Wyndham content series — covering who the clinic is, what it offers, who is on the team, and why it represents a meaningfully different level of dental access for western suburbs residents.

---

## Where is Core Dental Group's Wyndham clinic located?

The clinic is at 242 Hoppers Lane, Werribee VIC 3030. You can call on 03 9749 6677 or email [wyndham@coredental.com.au](mailto:wyndham@coredental.com.au).

Despite the Werribee postcode, the clinic sits within the broader Hoppers Crossing precinct and is central to the Wyndham corridor — accessible to patients from Werribee, Hoppers Crossing, Wyndham Vale, Point Cook, Tarneit, and Truganina. Being close to Pacific Werribee Shopping Centre means patients can combine appointments with everyday errands, which removes one of the small but real reasons people put off dental visits. On-site parking, public transport access, and Saturday hours add to that practicality. \*(For a detailed breakdown of how to find the clinic, transport options, and suburb catchment, see our guide on [\\*\\*\\*\[Dental Care Near Werribee vs. Hoppers Crossing: Finding Core Dental Group's Wyndham Location & Accessibility\]\(https://www.coredental.com.au/wyndham-location/\)\\*\\*\\*\)\\*\\*\\*\)\\*](#)

The clinic is open six days a week, with extended trading hours to suit patients who can't make it during standard business hours.

---

## The Core Dental Group Wyndham team: dentists, specialists, and hygienists

### A multi-disciplinary model of care

What separates a full-service clinic from a standard suburban practice isn't the number of chairs — it's who is in them. Core Dental Group's team of dentists, registered specialists, and dental hygienists covers an extensive range of services for both adults and children.

Having registered dental specialists on-site — rather than sending patients to Melbourne's CBD — is a genuine advantage in a growth corridor where time and transport are real constraints. Specialist services at the Wyndham clinic include periodontology, endodontics, oral and maxillofacial surgery, prosthodontics, and paediatric specialist care. \*(For a full explanation of when specialist referral is appropriate and how the multi-disciplinary model works, see our guide on\* [Specialist Dental Care in Wyndham: Periodontist, Endodontist, Oral Surgeon & More](https://www.coredental.com.au/specialist-dental-care-wyndham/)\*)

### Group expertise and scale

Core Dental Group — in conjunction with Smile Solutions — has been dentist-owned and operated since 1993. Across the network, it serves over 300,000 patients, with around 20,000 new patients each year. The orthodontic department alone sees more than 3,000 new patients annually, with over one-third of those being new Invisalign starts.

Every member of the Wyndham team is selected for clinical competence, a genuine interest in patient care, and a commitment to ongoing professional development. The environment is deliberately warm rather than clinical in feel, with an emphasis on building trust before treatment begins.

That group model also delivers a practical clinical advantage: the network gives patients access to over 40 dental suites equipped with CEREC units, iTero scanners, Trios machines, CBCT imaging, and multiple implant systems. The Wyndham clinic draws directly on this shared technology infrastructure and the clinical peer network it supports.

---

## What services are available at Core Dental Group's Wyndham clinic?

One of the most common questions new patients ask is whether their specific dental need can be handled locally, or whether they'll be referred elsewhere. At Core Dental Group's Wyndham clinic, the answer is almost always: it can be handled here.

### Service overview: what's available under one roof

| Service category | Examples of treatments | |---|---| | **General and preventive dentistry** | Check-ups, scale-and-clean, fluoride, X-rays, oral cancer screening | | **Emergency dentistry** | Same-day appointments, toothache, broken teeth, lost fillings, swelling | | **Children's dentistry** | First visits, fissure sealants, CDBS bulk-billing, child-friendly care | | **Orthodontics** | Invisalign, traditional braces, clear braces, lingual braces | | **Cosmetic dentistry** | Teeth whitening, composite veneers, porcelain veneers, smile makeovers | | **Dental implants** | Conventional and immediate implants, implant-supported restorations | | **Sleep dentistry** | Nitrous oxide (happy gas), sedation for anxious patients | | **Specialist care** | Periodontics, endodontics, oral surgery, prosthodontics, paediatric specialist |

### General and preventive dentistry

Consistent preventive care is the foundation of a healthy mouth. The clinic's general dentistry services cover comprehensive oral examinations, professional scale-and-clean, fluoride treatments, oral cancer screening, and personalised treatment planning. \*(For a detailed guide to what happens at each appointment and why routine visits matter, see\* [\\*\\*\\*\[General Dentistry in Wyndham: Check-Ups, Cleans & Preventive Care Explained\]](https://www.coredental.com.au/general-dentistry-wyndham/)\*\*\* \*)\*

### ### Emergency dental care

The Wyndham emergency dentist typically sees urgent cases the same day, often within hours. Patients with a dental emergency can call 03 9749 6677. In a fast-growing suburb where healthcare access is already stretched, same-day emergency availability isn't a luxury — it's a clinical necessity. \*(See our full guide: [\\*\\*\\*\[Emergency Dentist in Wyndham: Same-Day Care for Werribee & Hoppers Crossing\]](https://www.coredental.com.au/emergency-dentist-wyndham/)\*\*\* \*)\*

### ### Children's dentistry and the CDBS

The clinic provides dedicated paediatric dental services, including first dental visits for toddlers, child-friendly examination techniques, fissure sealants, and fluoride treatments. Eligible families can access the Child Dental Benefits Schedule (CDBS), a Medicare-funded program providing up to \$1,095 AUD in dental benefits for children aged 2–17 who meet eligibility criteria ([Services Australia, 2024](<https://www.servicesaustralia.gov.au/child-dental-benefits-schedule>)). \*(See [\\*\\*\\*\[Children's Dentistry in Wyndham: Paediatric Dental Care for Hoppers Crossing Families\]](https://www.coredental.com.au/childrens-dentistry-wyndham/)\*\*\* for a full breakdown of the CDBS and what to expect at your child's first appointment.)\*

### ### Invisalign and orthodontics — Blue Diamond Provider status

Core Dental Group holds a distinction that sets it apart from virtually every other suburban dental clinic in Melbourne's west. Blue Diamond is the highest provider status awarded by Invisalign, recognising experience and expertise in performing over 750 Invisalign cases a year. Core Dental Group carries this status across all seven of its Core Dental practices, which means Wyndham patients get competitive pricing without needing to travel.

In practical terms, Wyndham residents have access to one of Australia's highest-volume Invisalign providers without leaving their local area. As Blue Diamond Providers, the clinic can help patients achieve a straighter smile without braces — a status earned through consistently positive clinical outcomes across the network. \*(For a full comparison of Invisalign vs. braces, treatment suitability, and costs, see [\\*\\*\\*\[Invisalign & Orthodontics at Core Dental Group Wyndham\]](https://www.coredental.com.au/invisalign-wyndham/)\*\*\* \*)\*

### ### Cosmetic dentistry

The clinic offers professional teeth whitening (in-chair and take-home options), porcelain veneers, composite veneers, and composite bonding. Complete smile makeovers — combining multiple cosmetic treatments into a single coordinated plan — are also available. \*(See [\\*\\*\\*\[Cosmetic Dentistry in Wyndham: Teeth Whitening, Veneers & Smile Makeovers\]](https://www.coredental.com.au/cosmetic-dentistry-wyndham/)\*\*\* for treatment-by-treatment guidance.)\*

### ### Dental implants

Dental implants are the standard solution for permanent tooth replacement, and the Wyndham clinic offers both conventional and immediate implant procedures. Candidacy assessment, surgical placement, and final restoration can all be managed through the clinic's specialist-integrated model. \*(See [\\*\\*\\*\[Dental Implants in Wyndham: Permanent Tooth Replacement at Core Dental Group's Wyndham Clinic\]](https://www.coredental.com.au/dental-implants-wyndham/)\*\*\* for a full explainer on the treatment timeline and how implants compare to bridges and dentures.)\*

### ### Sleep dentistry for anxious patients

Dental anxiety is one of the most significant barriers to oral healthcare in Australia. The Wyndham clinic uses gentle techniques and offers sleep dentistry options — including nitrous oxide (happy gas) — for patients with anxiety, phobia, or complex treatment needs. \*(See\* \*\*\*[Sleep Dentistry in Wyndham: Sedation Options for Anxious Dental Patients](<https://www.coredental.com.au/sleep-dentistry-wyndham/>)\*\*\* \*for a full guide to sedation suitability and what to expect.)\*

---

### ## Making dental care financially accessible in Wyndham

Cost is consistently one of the primary reasons Australians avoid dental care. Research published in the *Australian Journal of Rural Health* (Deerain et al., 2023) notes that for many Australians, cost is a barrier to accessing oral health care, partly because most oral health care is delivered through the private sector and public dental services are available only to a limited population.

Core Dental Group's Wyndham clinic addresses this directly through several mechanisms:

- **Private health fund processing:** The clinic accepts major health funds as a preferred provider, with on-the-spot claiming available.
- **Interest-free payment plans:** Patients can spread the cost of treatment over up to 15 months, interest-free.
- **MySmilePlan:** An interest-free dental payment plan with no interest ever, which patients can apply for at the practice.
- **Upfront written quotes:** Before any treatment begins, patients receive a written quote so they know exactly what they're committing to. The clinic also helps prioritise treatment so costs can be staged.
- **Group buying power:** Because Core Dental Group purchases equipment and materials at scale across its network, those savings flow through to patients in the form of more affordable treatment plans.

\*(For a complete breakdown of payment options, Payright plans covering up to \$20,000 AUD, and how to ask the right questions at your consultation, see\* \*\*\*[Dental Payment Plans & Health Fund Options at Core Dental Group's Wyndham Clinic](<https://www.coredental.com.au/payment-plans-wyndham/>)\*\*\* \*.)\*

---

### ## Why a rapidly growing suburb demands a different standard of dental clinic

Wyndham's growth figures aren't just statistical background — they have direct implications for how dental care needs to be delivered here. Delivering services at the levels a population like Wyndham's requires is an ongoing challenge. Cost-of-living pressures and reduced State and Federal funding are making it harder for the sector to keep pace, particularly in growth areas.

Against that backdrop, a clinic that sends patients to Melbourne's CBD for specialist care, has no after-hours emergency access, or can't offer flexible payment options isn't genuinely meeting the needs of a Wyndham family. The multi-disciplinary, full-service model at Core Dental Group's Wyndham clinic is a practical response to those specific access challenges — not a marketing claim.

Choosing the right dental clinic matters especially in a fast-growing area, and Core Dental Group's Wyndham clinic combines expert care with a genuinely welcoming environment to make every visit as straightforward as possible.

\*(For an evaluative framework on how to choose between dental clinics in the Wyndham area, see\* \*\*\*[How to Choose the Right Dentist in Wyndham: What Werribee & Hoppers Crossing Residents Should Look For](<https://www.coredental.com.au/choose-dentist-wyndham/>)\*\*\* \*.)\*

---

## ## Key takeaways

- Wyndham's 2024 population of 337,009 — and a forecast 64.96% increase by 2046 — makes accessible, comprehensive local dental care a genuine community health priority. - Core Dental Group's Wyndham clinic houses general dentists, registered specialists, and dental hygienists at 242 Hoppers Lane, Werribee, with six-days-a-week availability and same-day emergency access. - Blue Diamond Invisalign Provider status — the highest tier awarded by Invisalign — reflects Core Dental Group's experience across more than 750 cases per year, making it one of the most experienced orthodontic providers in the western suburbs. - Financial accessibility is built into the model: interest-free payment plans, MySmilePlan, major health fund processing, and upfront written quotes mean cost doesn't have to be a reason to delay necessary care. - On-site specialists covering periodontics, endodontics, oral surgery, prosthodontics, and paediatric care mean Wyndham residents rarely need to travel to Melbourne's CBD for complex dental treatment.

---

## ## Conclusion

Core Dental Group's Wyndham clinic sits at the intersection of two realities: a community growing faster than its infrastructure can keep pace with, and a dental care model built to meet that community where it is. The clinic's location in Hoppers Crossing, its multi-disciplinary team, its Blue Diamond Invisalign status, its breadth of services from preventive to specialist, and its commitment to financial accessibility make it the most complete dental option for Werribee, Hoppers Crossing, and the broader Wyndham corridor.

Whether you're a new resident looking for a family dentist, a parent navigating your child's first dental visit, an adult considering orthodontic treatment, or someone who has been putting off the dentist because of anxiety or cost — the clinic is structured to help. Explore the related guides in this series to find the specific information you need for your situation.

### ### General product claims

- The clinic is described as a "full-service" clinic meaningfully differentiated from "standard suburban dental practices" - On-site specialist availability is characterised as reducing the need for Melbourne CBD travel - Proximity to Pacific Werribee Shopping Centre is described as reducing practical friction that causes appointment avoidance - Blue Diamond status is presented as giving Wyndham residents access to one of Australia's highest-volume, most experienced Invisalign providers - The multi-disciplinary model is characterised as a practical response to the specific healthcare access challenges of Wyndham - Group buying power is described as enabling cost savings passed on to patients through more affordable treatment plans - The clinic environment is described as warm and welcoming, with staff selected for their caring attitude - Sleep dentistry options are described as making visits more comfortable for nervous patients - The clinic is described as the most complete dental option for Werribee, Hoppers Crossing, and the broader Wyndham corridor - Cost barriers are described as being directly addressed through the clinic's financial mechanisms - The access-gap findings from Madill et al. (2018) — a study focused on diabetic care — are applied by analogy to dental services; this extrapolation is an interpretive claim, not a finding of that study
