Is South Melbourne a Core Dental Group location: Yes, at 87 Market Street

Is Hawthorn a Core Dental Group location: Yes, at 827 Glenferrie Road

Is Werribee a Core Dental Group location: Yes, at 242 Hoppers Lane

What Is Core Dental Southbank — and Why Does It Matter Where You Get Your Dental Care?

Core Dental Group is a family-owned dental network based in Melbourne, and its Southbank clinic at 55 City Road is a good illustration of why the choice of practice matters more than most people assume. For Melburnians living or working in Southbank, the CBD, or along St Kilda Road, picking a dentist involves competing priorities: how close it is to public transport, whether you can get an appointment before or after work, what treatments are actually available on-site, and whether you trust the people providing care.

According to the Australian Institute of Health and Welfare's Patient Experience Survey 2023–24, just over half (53%) of Australians aged 15 and over visited a dental professional in the last 12 months. Yet around 3 in 10 people (28%) who needed to see a dental professional delayed or did not see one at least once in the previous 12 months, with around 2 in 10 (18%) reporting that cost was a reason for delaying or not seeing a dental professional.

Those figures point to a persistent gap between dental need and dental action — one that access, affordability, and a trustworthy local clinic can directly address. Core Dental Group's Southbank clinic, at 55 City Road, is designed to close that gap for the inner-Melbourne population.

This article covers the foundational facts about Core Dental Southbank: who they are, where they sit within the Core Dental Group network, what their clinical philosophy means day-to-day, and what you can realistically expect from first contact through to ongoing care. If you're weighing up whether Core Dental Southbank is the right clinic for you, this is the place to start.

Who Is Core Dental Southbank? The Entity Defined

Clinic name, address, and contact details

Core Dental Group's Southbank clinic is at 55 City Road, Southbank VIC 3006, reachable on (03) 9626 5555. The clinic sits within the Southbank precinct — one of Melbourne's most densely populated and professionally active inner-city suburbs — placing it within easy reach of Flinders Street Station, the Melbourne CBD, and the St Kilda Road business corridor.

Part of a family-owned, dentist-led network

Core Dental Southbank is not a corporate dental chain. As part of Core Dental Group — a family-owned network of dental clinics across Melbourne — it offers collaborative expertise: general dentists and dental specialists working together, modern technology for faster and more comfortable treatments, and transparent pricing with no hidden fees.

Core Dental Group has been owned and operated by a dentist since 1993, which is over three decades of continuous operation in the Melbourne dental market. That distinction matters: dentist-owned practices are oriented around clinical outcomes rather than investor returns, and that difference tends to show up in treatment planning, staffing decisions, and how patients are actually treated.

Core Dental Group operates alongside Smile Solutions, one of Australia's largest dental practices. That affiliation provides access to shared resources, expertise, and infrastructure — enabling Core Dental Group to offer specialist services and advanced technology that many suburban practices simply can't.

Scale of the group

Since 1993, Core Dental Group, together with Smile Solutions, has built a patient base of over 300,000, with around 20,000 new patients each year.

The network spans seven practices across Melbourne's suburbs, with over 40 dental suites equipped with current technology. Locations include Southbank, South Melbourne, Hawthorn, Bentleigh,

Werribee, Berwick, and Caroline Springs — positioning Core Dental Group between budget dental chains and premium CBD practices, with the scale advantages of a multi-site network and the feel of a local, community-focused practice.

Where Is Core Dental Southbank? Location and Accessibility

55 City Road, Southbank VIC 3006

Core Dental Group's Southbank clinic is on City Road, with state-of-the-art facilities and current equipment. City Road is one of Southbank's main arterials, running parallel to the Yarra River and connecting directly to the St Kilda Road tram network and pedestrian bridge access to Flinders Street Station.

The clinic is a short walk from Flinders Street Station and multiple tram stops along St Kilda Road. For CBD professionals, that means Core Dental Southbank is realistically reachable before work, during a lunch break, or after hours — a practical consideration for anyone managing a busy weekday schedule.

For detailed walking routes from Flinders Street Station, tram stop numbers, cycling access, and nearby parking options, see our companion guide: *[How to Get to Core Dental Southbank from Flinders Street Station, the CBD, and St Kilda Road](<https://www.coredental.com.au/locations/southbank/>)*.

Opening hours

Core Dental Group's Southbank clinic is open Monday through Friday from 08:00 to 18:00, and on Saturday from 08:00 to 13:30. The 8am weekday start is designed for patients who need to fit an appointment in before work. Saturday morning availability extends access further for patients who can't make it during the week.

The Core Dental Group Philosophy: What It Means in Practice

Patient-centred care as a structural commitment

Core Dental Group's practice philosophy comes back to the basics of human relations: striving for excellence in quality of care, overcoming communication barriers, and trying to see patients' needs and expectations through their eyes, not the practice's own.

That's not just positioning. Core Dental Group's clinical team includes dentists, hygienists, and registered specialists, supported by management, reception, and nursing staff. The group draws on the knowledge and experience of all its specialists, dentists, and hygienists as a core part of treatment planning for each patient.

Transparency as a practice policy

Cost uncertainty is one of the most consistent anxieties patients report about dental care. Around 3 in 10 (32%) people aged 18 and over avoided or delayed dental care because of cost. Core Dental Group's Southbank clinic addresses this directly through upfront pricing: they quote before treatment starts, so patients know what they're committing to before anything begins.

Availability, affordability, and a relaxed environment are three reasons Core Dental Group cites for choosing their Southbank practice — and those three things map directly onto the barriers that keep people from getting dental care in the first place.

Multilingual access for Melbourne's diverse community

Staff across Core Dental Group speak Mandarin Chinese, Malay, Arabic, Bengali, and Farsi. For a suburb like Southbank — home to international students, professionals, and visitors — that linguistic range removes a real barrier to care.

What Services Are Available at Core Dental Southbank?

A full-spectrum clinic under one roof

Core Dental Group's Southbank clinic is a comprehensive, full-service dental practice. It covers the full range of general dentistry, including restorative, emergency, and preventative treatments.

Services include: check-ups, kids' dentistry, fillings, root canal therapy, tooth extractions, wisdom teeth procedures, Invisalign, teeth whitening, implants, crowns, bridges, veneers, dentures, orthodontics, periodontics, prosthodontics, endodontics, oral and maxillofacial surgery, sleep dentistry, and paediatric dentistry.

That breadth means patients can receive continuity of care at a single location — from a first check-up through to complex restorative or orthodontic treatment — without being referred out to separate specialist practices.

A snapshot of core services

| Service Category | Examples at Core Dental Southbank | |---|---| | ****Preventive**** | Check-ups, cleans, X-rays, oral cancer screening | | ****Restorative**** | Fillings, crowns, bridges, root canal therapy | | ****Surgical**** | Extractions, wisdom teeth removal, implants | | ****Orthodontic**** | Invisalign, braces | | ****Cosmetic**** | Teeth whitening, veneers, smile makeovers | | ****Paediatric**** | Children's check-ups, early intervention | | ****Emergency**** | Same-day appointments, walk-in protocols | | ****Specialist**** | Endodontics, periodontics, prosthodontics |

For detailed information on each service area, see the dedicated guides in this series, including [*\[General Dentistry Services at Core Dental Southbank\]\(https://www.coredental.com.au/locations/southbank/\)*](https://www.coredental.com.au/locations/southbank/), [*\[Cosmetic Dentistry at Core Dental Southbank\]\(https://www.coredental.com.au/locations/southbank/\)*](https://www.coredental.com.au/locations/southbank/), and [*\[Restorative Dentistry in Southbank\]\(https://www.coredental.com.au/locations/southbank/\)*](https://www.coredental.com.au/locations/southbank/).

Invisalign Blue Diamond status: what it signals

One credential that sets Core Dental Group apart from most local dental practices is its Invisalign provider tier. Core Dental Group's orthodontic department brings in more than 3,000 new patients a year, with over a third of those being new Invisalign starts — making Core Dental Group one of the only Blue Diamond Invisalign providers in Australia.

Blue Diamond is the highest provider status awarded by the manufacturers of Invisalign. To reach this tier, providers must complete more than 750 cases per year. The status can't be bought — it's awarded by Invisalign Australia based solely on the number of patients who have successfully completed treatment.

For patients considering orthodontic alignment, that credential is a meaningful differentiator. For a full breakdown of what Blue Diamond status means for your treatment, see [*\[Invisalign and Clear Aligners at Core Dental Southbank: What Southbank Patients Need to Know\]\(https://www.coredental.com.au/locations/southbank/\)*](https://www.coredental.com.au/locations/southbank/).

What to Expect: The Patient Journey from First Contact to Treatment

Step 1 — Making contact and booking

Core Dental Group has been built to make routine dental care easy to access, from affordable pricing to extended trading hours. Patients can book online, by phone, or in person. For a detailed walkthrough of each booking pathway — including what information to bring to a first appointment — see [*\[Booking a Dentist Appointment in Southbank: Online, Phone, and Walk-In Options at Core Dental\]\(https://www.coredental.com.au/locations/southbank/\)*](https://www.coredental.com.au/locations/southbank/).

Step 2 — Arriving at the clinic

Patients are invited to relax from the moment they arrive at Core Dental Group's Southbank clinic. The emphasis on patient comfort and clear communication is designed to reduce the anxiety that puts many people off dental visits. Many patients mention quick appointment scheduling and minimal waiting times as things they notice on arrival.

Step 3 — The initial examination

A dental check-up at Core Dental Group's Southbank clinic includes a comprehensive examination, soft tissue and gum assessment, oral cancer screening, digital X-rays (if required), intraoral radiographs and photographs, a discussion about your concerns and goals, and a personalised treatment plan with anticipated costs.

Oral cancer screening, worth noting, is not universally included in check-ups at all practices. Its inclusion here reflects a clinical thoroughness that goes beyond a routine tooth count.

Step 4 — Treatment planning and cost transparency

Before any treatment proceeds, patients receive a clear quote. This pre-treatment transparency is a deliberate practice policy at Core Dental Group, designed to remove the financial uncertainty that contributes to delayed dental care across the Australian population. For a detailed breakdown of typical costs and how private health insurance rebates apply, see [*\[Dental Costs in Southbank: What You'll Pay at Core Dental and How Health Fund Rebates Work\]\(https://www.coredental.com.au/locations/southbank/\)*](https://www.coredental.com.au/locations/southbank/).

Step 5 — Ongoing care and emergency access

Core Dental Group's Southbank clinic reserves appointments for emergency patients every day, and even when fully booked, invites patients to come in so dentists can find a solution. The clinic provides daily emergency appointments and accommodates international visitors with same-day care. For CBD workers, Southbank residents, and tourists near Flinders Street, that commitment to same-day access is a significant practical advantage. For a detailed guide to emergency protocols, see [*\[Emergency Dentist in Southbank: How Core Dental Handles Same-Day Dental Emergencies\]\(https://www.coredental.com.au/locations/southbank/\)*](https://www.coredental.com.au/locations/southbank/).

The Clinical Team: Generalists, Specialists, and Mentorship

Core Dental Group's multidisciplinary setup lets clinicians collaborate with peers, which tends to produce better outcomes for patients. The practice offers mentorship by experienced clinicians, in-house clinical lectures, courses, and access to peer review and discussion.

Visiting specialists provide additional support, and there's a structured mentorship program across the group. Clinicians are encouraged to work across the full scope of dentistry, including substantial Invisalign and CEREC treatments, and are supported through internal CPD education.

That internal education model is worth noting: in many smaller practices, continuing professional development is left to individual clinicians to organise. Core Dental Group's investment in structured in-house education means clinical standards are actively maintained across the group — and that flows directly to patients.

Patients have specifically commended the warm and compassionate team, particularly Dr Sally and Dr Anchal, for their care during treatments like root canals and wisdom tooth extractions.

How Core Dental Southbank Compares Within the Core Dental Group Network

Core Dental Southbank is one of seven locations across metropolitan Melbourne operated by Core Dental Group. Other locations include 87 Market Street, South Melbourne; 242 Hoppers Lane, Werribee; and 827 Glenferrie Road, Hawthorn, among others.

Within the Core Dental Group network, the Southbank clinic's distinguishing characteristics are:

- A prime inner-city location directly accessible from Flinders Street Station and the St Kilda Road tram corridor
- Extended weekday hours from 8am, serving CBD professionals before work
- Saturday morning availability for patients who can't attend during the week
- Same-day emergency access for CBD workers, residents, and international visitors
- Full-spectrum services including general, cosmetic, restorative, orthodontic, and specialist care

For patients weighing up which Core Dental Group location suits their needs, see *[Dentist Southbank vs CBD vs South Melbourne: Choosing the Right Core Dental Location for You](<https://www.coredental.com.au/locations/southbank/>)*.

Key Takeaways

- Core Dental Group's Southbank clinic is a family-owned, dentist-led practice at 55 City Road, Southbank VIC 3006 — part of a network established in 1993 with over 300,000 patients across Melbourne.
- The clinic is a full-spectrum dental practice, covering routine check-ups and cleans through to dental implants, Invisalign, cosmetic veneers, emergency care, and paediatric dentistry under one roof.
- Blue Diamond Invisalign Provider status — the highest tier awarded by Invisalign Australia, requiring over 750 successful cases per year — makes Core Dental Group one of Australia's most experienced orthodontic providers.
- Extended hours from 8am Monday to Friday, Saturday mornings, and daily emergency appointments make the clinic practically accessible for CBD professionals, Southbank residents, and visitors.
- Transparent pre-treatment quoting directly addresses the cost anxiety that the AIHW identifies as a leading reason Australians delay or avoid dental care.

Conclusion

Core Dental Group's Southbank clinic at 55 City Road is a clinically comprehensive, family-owned practice embedded in a 30-year-old Melbourne dental network — one with the scale to offer specialist services and the philosophy to deliver them with individual, patient-centred care.

For anyone living in Southbank, commuting through Flinders Street, working along St Kilda Road, or simply looking for a dentist who combines genuine clinical depth with transparent, accessible care, Core Dental Group's Southbank clinic is a well-credentialed and practically accessible option.
