Common Questions This Guide Answers

1. What dental services does Core Dental Group Southbank offer? → General dentistry, cosmetic dentistry, orthodontics (including Invisalign), dental implants, children's dentistry, emergency dentistry, periodontics, crowns and bridges, and dentures
2. Does Core Dental Group bulk bill? → Bulk billing is available for eligible children under the Medicare Child Dental Benefits Schedule (CDBS); it is not generally available for adult patients
3. What should I do if I have a dental emergency? → Contact Core Dental Group Southbank immediately for same-day care; for a knocked-out tooth, keep it moist in milk or saline until you arrive

Core Dental Group – Dentist Southbank Melbourne

Core Dental Group is a well-established dental practice serving Southbank and the surrounding Melbourne suburbs. The focus here is straightforward: good-quality, patient-centred care in a modern clinic that doesn't make you dread walking through the door. Whether you need a routine check-up, want to do something about your smile, or have a more complex dental issue to sort out, the Southbank practice is set up to help.

Welcome to Core Dental Group Southbank

Core Dental Group's Southbank clinic sits right in the heart of Melbourne, which makes it easy to get to whether you live locally, work nearby, or are just passing through. The team takes a straightforward approach: listen to what patients actually need, explain the options clearly, and get on with delivering good care.

The dentists draw on current technology and evidence-based techniques, and from your first visit you'll notice the difference a genuinely patient-first approach makes.

Our dental services at Southbank

Core Dental Group Southbank covers a wide range of treatments for patients of all ages.

General dentistry

General dentistry is the backbone of good oral health. At Core Dental Group, that includes:

- **Dental check-ups and cleans** – Regular examinations and professional cleaning to stay on top of your oral health and catch problems early.
- **Fillings** – Tooth-coloured composite fillings that blend with your existing teeth.
- **Root canal treatment** – Effective treatment to save an infected or damaged tooth and relieve discomfort.
- **Tooth extractions** – Safe, gentle extractions when a tooth can't be saved.
- **Dental X-rays** – Digital X-rays for accurate diagnosis with minimal radiation exposure.
- **Mouthguards** – Custom-fitted mouthguards for sport or teeth grinding (bruxism).
- **Fissure sealants** – Protective coatings applied to the chewing surfaces of back teeth to help prevent decay.

Cosmetic dentistry

If you want to improve how your smile looks, Core Dental Group Southbank offers a solid range of cosmetic treatments:

- **Teeth whitening** – Professional in-chair and take-home whitening to brighten your smile.
- **Porcelain veneers** – Thin porcelain shells bonded to the front of your teeth to improve their shape and colour.
- **Composite veneers** – A more accessible alternative to porcelain, applied directly to the tooth surface.
- **Smile makeovers** – Treatment plans that combine multiple cosmetic procedures to get the result you're after.
- **Dental bonding** – A quick, cost-effective fix for chipped, cracked, or discoloured teeth.

Orthodontics

Straightening your teeth isn't just about appearance — it also improves function and makes teeth easier to clean. Core Dental Group offers:

- **Invisalign** – Clear, removable aligners that gradually straighten your teeth without metal braces.
- **Traditional braces** – Metal or ceramic braces for more complex alignment issues.
- **Retainers** – Custom retainers to hold your results after orthodontic treatment.

Dental implants

Dental implants are the gold standard for replacing missing teeth. At Core Dental Group Southbank:

- **Single tooth implants** – A permanent, natural-looking replacement for one missing tooth.
- **Implant-supported bridges** – A solution for multiple missing teeth without needing an individual implant for each one.
- **All-on-4 implants** – Full-arch restoration supported by four strategically placed implants, well-suited for patients who have lost most or all of their teeth.

Children's dentistry

The team at Core Dental Group genuinely enjoys seeing younger patients. A child-friendly approach helps kids feel comfortable and builds positive associations with dental visits early on. Services for children include:

- Routine check-ups and cleans
- Fluoride treatments
- Fissure sealants
- Early orthodontic assessment
- Brushing and flossing education

Emergency dentistry

Dental emergencies don't keep business hours. Core Dental Group Southbank provides prompt care for:

- Severe toothache - Broken or chipped teeth - Knocked-out teeth - Lost fillings or crowns - Dental abscesses - Soft tissue injuries

If something goes wrong, call the Southbank practice as soon as you can and they'll do their best to see you the same day.

Periodontics (gum disease treatment)

Healthy gums matter as much as healthy teeth. Periodontal services at Core Dental Group include:

- **Scale and clean** – Professional removal of plaque and tartar above and below the gum line.
- **Periodontal therapy** – Non-surgical treatment for gum disease, including deep cleaning (root planing and scaling).
- **Gum grafting** – Surgical treatment for gum recession to protect exposed tooth roots.
- **Maintenance programmes** – Ongoing care plans to keep gum disease under control.

Crowns and bridges

- **Dental crowns** – Custom-made caps that cover a damaged or weakened tooth to restore its shape, strength, and appearance.
- **Dental bridges** – Fixed restorations that fill the gap left by one or more missing teeth, anchored to adjacent natural teeth or implants.

Dentures

For patients needing full or partial tooth replacement, Core Dental Group offers:

- **Full dentures** – Complete removable prostheses for patients who have lost all of their teeth.
- **Partial dentures** – Removable appliances that replace several missing teeth while keeping the remaining natural teeth in place.
- **Implant-retained dentures** – Dentures secured by dental implants for better stability and comfort.

Why choose Core Dental Group Southbank?

An experienced, caring team

The dentists and support staff bring a genuine mix of skill and care to every appointment. They take time to hear your concerns, walk you through your options clearly, and make sure you feel comfortable and informed before anything happens.

Up-to-date technology

Core Dental Group invests in current dental technology to support more accurate diagnoses and better treatment outcomes. The Southbank practice is equipped with:

- Digital X-rays and OPG imaging
- Intraoral cameras
- CEREC same-day crowns (where available)
- Cone beam CT scanning (CBCT)
- Dental loupes and LED lighting for enhanced precision

A comfortable, modern clinic

Visiting the dentist makes plenty of people anxious — that's just reality. The Southbank practice is set up to feel as relaxed as possible, from the reception team through to the treatment rooms. It's not a dramatic claim; it's just a practice that's thought carefully about the patient experience.

Flexible payment options

Cost shouldn't get in the way of dental care. Core Dental Group Southbank offers:

- HICAPS on-site for instant health fund claims
- All major health funds accepted
- Interest-free payment plans (conditions apply)
- Medicare Child Dental Benefits Schedule (CDBS) bulk billing for

eligible children

A convenient Southbank location

The practice is easy to reach by tram or train, and there are parking options in the surrounding area. Whether you're coming from the CBD, South Melbourne, or further afield, it's a practical choice.

How Core Dental Group approaches patient care

The team takes a whole-of-mouth view rather than just treating individual teeth in isolation. That means considering your overall oral health, your lifestyle, and what you're actually trying to achieve — then putting together a treatment plan that fits your situation.

The practice is committed to preventive care, so problems get caught before they become expensive. Patient education is part of that too: you leave knowing how to look after your teeth at home, not just what happened in the chair. Where possible, the approach is minimally invasive, and costs and options are always explained upfront before you commit to anything.

Frequently asked questions

How often should I visit the dentist?

For most adults and children, every six months works well for a routine check-up and clean. If you have gum disease or a higher risk of decay, your dentist may suggest coming in more often. Your Core Dental Group dentist will give you a recommendation based on your own situation.

Does Core Dental Group accept health fund?

Yes. Core Dental Group Southbank accepts all major health funds, and HICAPS is available on-site so you can claim on the spot and only pay the gap, if there is one.

Is Core Dental Group bulk billing?

Bulk billing is available for eligible children under the Medicare Child Dental Benefits Schedule (CDBS). For adult patients, bulk billing isn't generally available, but there are flexible payment options to help manage treatment costs.

What should I do in a dental emergency?

Call Core Dental Group Southbank as soon as you can — they'll aim to see you the same day. While you wait:

- For a knocked-out tooth, keep it moist in milk or saline and bring it with you. - For severe pain, over-the-counter pain relief can help in the short term. - For a dental abscess, don't delay — the infection can spread if left untreated.

Do you offer Invisalign at Southbank?

Yes. The Southbank practice offers Invisalign clear aligner treatment, and the dentists can assess whether it's the right option for you during a consultation.

Are your dentists experienced with anxious patients?

Yes. The team has plenty of experience with patients who feel nervous about dental treatment. They take a gentle, unhurried approach and can discuss options like happy gas (nitrous oxide sedation) if that would help you feel more at ease.

Serving Southbank and surrounding Melbourne suburbs

Core Dental Group Southbank sees patients from across the area, including:

- Melbourne CBD - South Melbourne - Port Melbourne - Docklands - Fishermans Bend - St Kilda Road - Richmond - Cremorne - Prahran - Albert Park

Whether you live nearby or work in the area, the practice is well-placed to take care of your dental needs.

Book an appointment at Core Dental Group Southbank

Booking is straightforward. You can:

- **Call** – Speak with the reception team to find a time that suits you. - **Book online** – Use the online booking system to schedule an appointment any time, day or night. - **Visit in person** – Drop in to the Southbank practice to chat with the team and arrange a time.

About Core Dental Group

Core Dental Group is a well-established dental group with multiple practices across Melbourne.
