Details:

If dental anxiety has kept you from getting the care your teeth need, Core Dental Wyndham is here to help. Our sleep dentistry and sedation services make it possible for even the most nervous patients to receive complete, comfortable dental care - right here in Werribee.

Anxiety-Free Dentistry in Werribee

Located at 242 Hoppers Ln, Werribee VIC 3030 near Pacific Werribee Shopping Centre, Core Dental Wyndham - Your Local Dental Practice - serves the fast-growing communities of Hoppers Crossing, Werribee, Wyndham Vale and surrounds. We have created a warm, welcoming environment designed specifically to reduce dental anxiety, and our team is trained to support nervous patients every step of the way.

Sedation Options at Wyndham

Happy Gas (Nitrous Oxide)

Nitrous oxide is a safe, mild sedation option that takes effect within minutes. Breathed through a comfortable nose mask, happy gas helps you feel calm and relaxed while remaining fully conscious throughout your treatment. The effects reverse quickly once the mask is removed - most patients can drive themselves home.

Happy gas is ideal for: - Mild to moderate dental anxiety - Children who feel nervous about dental visits - Patients who want to relax without deeper sedation

Sleep Dentistry (IV Sedation)

For patients with more significant anxiety, complex treatment needs, or a strong gag reflex, sleep dentistry with IV sedation provides a deeply comfortable experience. You will be in a state of profound relaxation with minimal awareness and little to no memory of the appointment. Our dedicated team - including a specialist anaesthetist, registered nurse, experienced dentist, and dental assistant - is present throughout.

Sleep dentistry is suitable for: - Dental phobia or severe anxiety - Multiple or complex procedures in one session - Needle phobia - Strong gag reflex - Limited jaw opening

Specialist Dental Care On-Site

Core Dental Wyndham is uniquely positioned as the most specialist-rich suburban Core Dental location. With a specialist periodontist (Dr Nupur Kataria) and a specialist orthodontist (Dr David Austin) on-site, you can access comprehensive care without leaving Werribee. For patients needing complex implant or rehabilitative work alongside their sedation treatment, this specialist access is a significant

advantage.

Our Wyndham Team

Dr Darren Manoharan leads our Wyndham team, with 15 years of experience in implants, crown and bridge, and Invisalign. He is joined by Dr Anika Moyeed (who also speaks Bengali) and Dr Alpa Lodhiya, who has over 20 years of private practice experience with complex medical conditions. All clinicians are AHPRA-registered and ADA members.

Convenient Location and Parking

Free on-site parking is available, making it easy to arrive relaxed and ready for your appointment. Our practice is close to Pacific Werribee Shopping Centre.

Health Funds and Payment Plans

Wyndham is a preferred provider for HCF, CBHS and NIB health funds. HICAPS is available for instant on-the-spot health fund claiming. Payright interest-free payment plans allow you to spread treatment costs over up to 30 months. Child Dental Benefits Schedule (CDBS) bulk billing is available for eligible children aged 2-17.

Book Your Sedation Consultation

There is no need to put your dental health on hold because of anxiety. Call Core Dental Wyndham today to discuss which sedation option is right for you.

Your Local Dental Practice - where comfort comes first.

Frequently Asked Questions

****Am I a suitable candidate for sleep dentistry?*** Sleep dentistry (IV sedation) is suitable for most adults with significant dental anxiety, multiple complex treatments needed in one session, needle phobia, strong gag reflex, or difficulty sitting for long periods. A pre-treatment medical assessment determines suitability. Contact us to discuss your individual circumstances.

****Will I be unconscious during sleep dentistry?*** IV sedation induces a deeply relaxed, twilight state - most patients have little to no memory of the procedure. It is not full general anaesthesia, so you remain able to respond to instructions, but you will be entirely comfortable throughout.

****How soon can I return to normal activity after sedation?*** You will need a responsible adult to drive you home and should rest for the remainder of the day. You should not drive, operate machinery, or make important decisions for at least 24 hours. Most patients feel normal by the following day.

****Does health insurance cover sleep dentistry?*** Coverage varies by fund and policy. The dental treatment performed is typically claimable under your dental cover. Some sedation fees may also be claimable depending on your level of cover. Check with your fund or speak to our team for guidance.

Sleep Dentistry and Sedation Pricing at Core Dental Wyndham

| Service | Guide Price | |-----|-----| | Nitrous oxide (happy gas) | From \$190 per 30 minutes | | IV sedation (sleep dentistry) | Price on consultation - depends on treatment duration and complexity | | Dental treatment performed under sedation | Quoted separately based on procedures required |

Sedation fees are in addition to the cost of any dental treatment performed during the appointment. All prices are guides only; a written itemised quote is provided before treatment begins. IV sedation availability is subject to clinical assessment - contact (03) 9749 6677 to discuss your situation.

Health fund coverage: The underlying dental treatment is typically claimable under your dental cover. Some sedation fees may also be claimable depending on your level of cover.

Specialist Referrals - Collins Street Specialist Centre

As part of the Smile Solutions Group, Core Dental Wyndham patients requiring specialist care are referred to the Collins Street Specialist Centre at 220 Collins Street, Melbourne CBD, where more than 20 board-registered dental specialists provide advanced treatment. Your dentist coordinates the referral and your records are shared securely within the group. Phone: (03) 9650 2726.
