| Treatment | Price | ---|---| | Zoom! In-Chair Whitening | from | | Pola Take-Home Whitening Kit | from | | Complete Whitening Package (In-Chair + Take-Home) | from | | Top-Up Gel (per box) | |

All pricing confirmed in writing before treatment begins. **HICAPS on-site** from opening day for instant health fund claiming. **Payright interest-free payment plans** (up to 30 months) available.

Professional vs Over-the-Counter Whitening

Professional dental whitening uses clinical-grade concentrations under dental supervision — significantly stronger and more effective than anything available over the counter.

What makes professional whitening different: - Higher concentration agents deliver faster, more consistent results - Dental assessment first — ensures your teeth and gums are ready - Existing restorations (crowns, veneers, fillings) are identified before treatment - Controlled process minimises sensitivity - Charcoal, strip, and online products are not recommended by dental professionals — they can damage enamel and deliver uneven results

Zoom! In-Chair Whitening

The fastest way to a noticeably brighter smile. **Philips Zoom! WhiteSpeed** LED lamp technology delivers up to **8 shades** of improvement in approximately 90 minutes.

What happens at your appointment: - Dental assessment and gum protection gel applied - Three 15-minute whitening cycles under the LED lamp - Immediate results — visible the same day - Mild temporary sensitivity in some patients (24–48 hours, then resolved)

****In-chair Zoom! whitening from .****

Ideal for weddings, events, milestone occasions, or any patient who wants the most immediate result.

Take-Home Whitening Kits

Custom-fitted trays + professional-strength ****Pola gel**** = excellent results at your own pace. Most patients achieve their goal shade within two weeks.

Take-home kits are ideal for: - Gradual, controlled whitening - Patients with existing tooth sensitivity - Long-term maintenance of in-chair results

****Take-home whitening kits from .****

Complete Whitening Package

The best of both: Zoom! in-chair for immediate transformation, plus a take-home kit for maintenance and long-term results.

****Complete package from ** — better value than booking both separately.**

Is Whitening Right for You?

Your dentist will assess before recommending whitening. Key points:

- Whitening works on ****natural enamel only**** — not crowns, veneers, or composite fillings - Teeth and gums must be healthy before treatment begins - Results vary based on the cause of staining (extrinsic vs intrinsic) - Some temporary sensitivity is expected and resolves within 48 hours

Your dentist will discuss realistic outcomes and flag any restorations that may affect your final result.

About Core Dental Glenferrie

Our Glenferrie practice is Core Dental's first eastern suburbs location — a fully renovated, purpose-built 3-surgery clinic at the corner of ****Glenferrie Road and Barkers Road****, one of Hawthorn's most prominent shopping and dining strips.

This is a high-foot-traffic, highly connected location — tram routes along Glenferrie Road, Glenferrie Station nearby, and a strong inner-east community drawn from Hawthorn, Kew, Camberwell, Balwyn, and Surrey Hills.

All Core Dental Glenferrie clinicians will be AHPRA-registered and ADA members. For complex cosmetic treatment planning — veneers, smile makeovers, complex restorations — patients have access to the ****Collins Street Specialist Centre (CSSC)**** through the Smile Solutions Group.

Maintaining Your Whitening Results

Results typically last 6–12 months with good habits. Key maintenance tips: - Avoid staining foods and drinks (coffee, red wine, tea) for 48 hours post-treatment - Use top-up gel refills (from per box) as needed - Attend regular 6-monthly scale and cleans - Brush twice daily with a soft-bristle brush and fluoride toothpaste

Frequently Asked Questions

****How much does teeth whitening cost at Core Dental Glenferrie?*** In-chair Zoom! whitening from . Take-home Pola kit from . Complete package from . Top-up gel refills per box. All pricing confirmed in writing before treatment.

****When does Core Dental Glenferrie open?*** Core Dental Glenferrie opens June 2026 at 827 Glenferrie Rd, Hawthorn VIC 3122. Register your interest at glenferrie@coredental.com.au or call 13 13 16 for opening notifications.

****Will whitening work on my crowns or veneers?*** No — whitening works on natural tooth enamel only. Existing crowns, veneers, and composite fillings will not change colour. Your dentist will discuss how this affects your overall whitening plan.

****How long do results last?*** Typically 6–12 months. Lifestyle factors (coffee, red wine, smoking) accelerate restaining. Top-up gel kits extend results significantly. Most patients refresh every 6–12 months.

****Is there parking near Core Dental Glenferrie?*** Street parking is available on Glenferrie Road and surrounding streets. The practice is well served by trams along Glenferrie Road and is a short walk from Glenferrie Station (Alamein/Belgrave/Glen Waverley lines).

****What is the difference between Zoom! whitening and take-home kits?*** Zoom! in-chair delivers results of up to 8 shades in approximately 90 minutes — maximum impact, fastest results. Take-home kits achieve equivalent results over approximately two weeks, with greater control and reduced sensitivity risk. Many patients use in-chair for the initial change and take-home for ongoing maintenance.
